The Weekly Paper of Labrador West

Vol. 1 NO 4

PUBLISHED IN WABUSH, LABRADOR,

APRIL 30, 1969

Labrador City Collegiate walked away with top honours in the High School Drama Festival held at Corner Brook recently. Shown is the group as they posed for a picture for Aurora shortly after their return. (l to r) front row, Rosemary Dawson, Marie Underwood, Guy Paradis, Judy Newell, Gerard Perrier, Macal Penney, Sharron Bryans, Delma Penney and Cathy West. Back row (l to r) D. Evans, (Asst.-Dir), Jacqueliem Williamson, Arthur Butt, Mike McCullough, Don Shave, Theresa Costingan and Keith Williams, Director. (Biron photo).

Scouter Kevin Green (right) is shown receiving the governor generals award from the Superintendent of Administration for the Iron Ore Company of Canada, Paul Penney. The award is made to scouters who have excelled in service in the scouting movement. Mr. Green is attached to the Carol Scouters Group. The presentation took place in the gym of the McManus School, Labrador City. Mr. Green is the father of three boys. (Biron photo).

Week in review

Joe can't attend

After confirming his intentions to attend the formation meeting of the Liberal Association of Labrador West here tonight, Premier Smallwood announced Tuesday that due to pressure of business in the house he would not be able to make it after all. The meeting is going ahead regardless and a big turnout of Liberal supporters are expected to attend tonight's meeting at the Recreation Centre in Wabush.

Return to their homes

An 11 man delegation representing the tourist industry of Prince Edward Island returned to their homes after a two day visit here.

The purpose of the visit was to drum up tourist trade for the island from this area. While here they hosted a number of functions, during which they presented films and distributed literature expounding the attractions of the island to the potential visitor.

4-year-old drowns

Raymond Peter Hutchings son of Mr. and Mrs. John Hutchings of Labrador City lost his life by drowning here during the past week. The tragic mishap took place at the swimming pool at the Recreation Centre in Wabush.

Hockey executive elected

Bill West was re-elected President of the Labrador City Minor Hockey Association.

Others elected were First Vice-President, Joe Dicks, Second Vice-President, Alex Hicks. Mrs. Audrey Fifield was re-elected secretary, E.W. Hunt was elected recording secretary and Whit Hean took on the post of treasurer.

About 25 interested parents attended the meeting.

Co-op group on the move

The Labrador West Consumer Wholesale is currently negotiating for the purchase or rental of a site which would serve as quarters and distribution outlet for this area.

The idea to set up a food depot for this area was decided upon at a meeting of interested residents last fall.

While negotiations are underway it is hoped to set up a truck delivery service.

Red shield campaign organizer visits

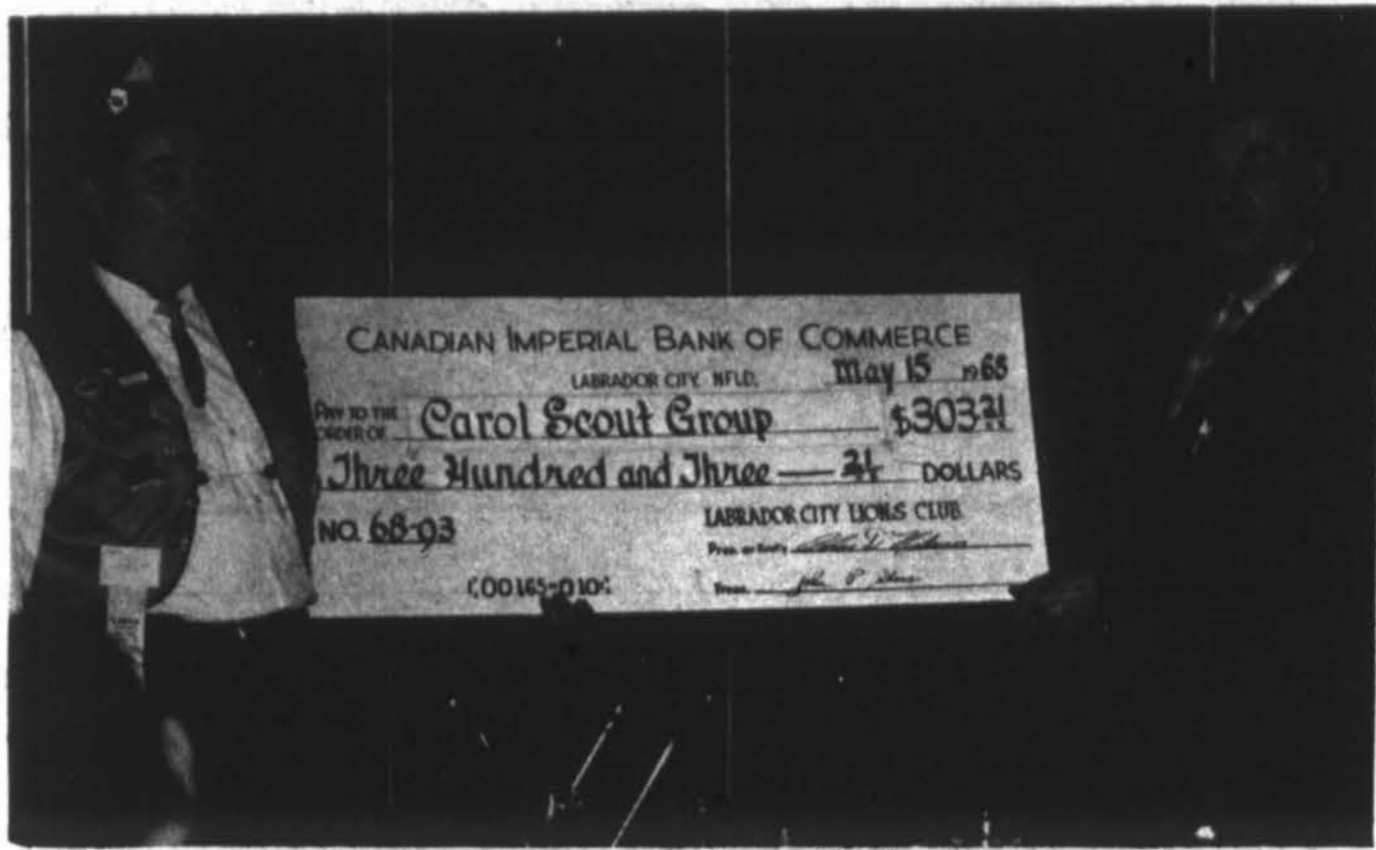

Captain Gilbert Fowler of the provincial headquarters of the Salvation Army in St. John's was here to set up the organization of the Red Shield Campaign for this year.

He met with the local committee after which he visited Churchill Falls on a similar mission.

Talented group to perform

The "Echo Des Iles" an excellent choral group from Seven Islands, will be performing here at the Labrador City Collegiate Saturday, March 19.

The 50-member mixed adult group has won national acclaim. It will be their second visit here. The group claimed the distinction of performing at the Place des Arts in Montreal.

Lion Phil Shave is pictured presenting a cheque to Chief Scouter Bill Soper of the Carol Scout Group.

The Lions Club of Labrador West made a donation of books to the Regional Library in Labrador City recently. Shown left to right are: Mrs. Murray Eddy, Librarian; Nelson Avery, Mrs. Nancy Mann; Board Member, Fred Barter; King Lion, Eldon Swyer making the presentation to Board Chairman, Albert Chatwood, and Cedric Cake, Board Member (Biron photo).

Another project is completed and a lucky winner is presented with his prize of a motor cycle. (Biron photo).

\$40,000 for community project

LABRADOR CITY (Staff)—The Lions Club of Labrador City are firm believers of the old saying that "actions speak louder than words". And furthermore they have proven it.

Since its inception in 1961 this active and community minded group has poured roughly \$40,000 which it raised through various projects back into the area to worthy causes.

The Lions Club of Labrador City was incorporated in 1961 and its first project was the construction of a greenhouse, which was passed over to the town on completion.

Included in the many other projects since that time, has been a \$5,000 donation towards the playground in Labrador City as a centennial project, two ice cube machines, a surgical apparatus and coagulation machine to the Captain William Jackman Memorial Hospital.

It has also purchased a car which will be donated to the public health nurse for the area to be presented at a later date.

The Carol Scout Group is another organization to benefit from the Lions. They sponsor the annual light bulb sale, the proceeds of which are passed over for the benefit of the scout-movement.

Every penny raised by the Lions goes back into the community in one beneficial form or another.

This year they will sponsor the "Forest Queen" competition in Labrador West. This competition is held yearly by the Newfoundland and Labrador Forest Protection Association.

The event will be in the form of a public speaking contest drawing students from the various schools and will be held at the Sir Wilfred Grenfell Hotel May seventh. The Topic will be "forest conservation."

In an effort to raise additional funds they are currently sponsoring the "barrel on the lake" contest.

Residents are familiar with the yellow barrel with the red flag on top sitting on Carol Lake as you pass the bridge.

The barrel is filled with material and residents are asked to guess the hour, minute, second and month the barrel will be completely emmersed in water. If this proves successful it is hoped to make the contest an annual event.

The group started with 15 charter members. Since that time membership has grown steadily to its current 35.

The only active remaining charter member is Nelson Avery of Labrador City.

May will be a busy month for the local group with the upcoming visit of the district governor, Jean Emond. A special function is in the cards to honour the event.

Later in the month, four members will travel to Ottawa to attend the Lions National convention. Those attending are Doug McKay, Pete Walsh, Nelson Avery and Stan Robinson.

CHILD SAFETY WEEK

Child Safety Week takes place starting May 4. It will alert parents to the hazards which cause such a high toll of child fatalities and injuries, explain how to obviate these dangers and stress the need to teach children safety from an early age.

Inserted with the compliments of

THE LOCAL IMPROVEMENT DISTRICT OF LABRADOR CITY

Here's a safety twist to a tale told best by Agathe Christie

- * 10 little drivers, cruising down the road; one had a heavy foot and then there were nine.
SPEED LIMITS ARE SET FOR YOUR SAFETY
- * 9 little drivers, the hour was getting late; one dozed a moment, and then there were eight.
A TIRED DRIVER IS A DANGEROUS DRIVER
- * 8 little drivers, and the evening seemed like heaven; one showed his driving skill, and then there were seven.
DRIVE SENSIBLY AND SANELY AT ALL TIMES. A car is no place for a clown.
- * 7 little drivers, their lives were full of kicks; one bought a bottle and then there were six.
GASOLINE AND ALCOHOL ARE A DEADLY MIX: Don't drink when you drive.
- * 6 little drivers, impatient to arrive; one jumped a traffic light, and then there were five.
DON'T GAMBLE YEARS OF YOUR LIVE TO SAVE A FEW SECONDS.
- * 5 little drivers, wheeling near the shore; one viewed the scenery, and then there were four.
CAREFUL DRIVING DEMANDS ALERTNESS AT ALL TIMES.
- * 4 little drivers, happy as could be; one passed upon a hill, and then there were three.
NEVER PASS ANOTHER CAR WHEN YOUR VISION IS OBSCURED.
- * 3 little drivers were busy, it is true; one neglected car repairs, and then there were two.
FOR SAFETY'S SAKE, ALWAYS KEEP YOUR CAR IN TOP CONDITION.
- * 2 little drivers, and day was nearly done; one didn't dim his lights, and then there was one.
SLOW DOWN FOR DUSK OR DARKNESS; ADJUST YOUR DRIVING TO EXISTING CONDITIONS.
- * 1 little driver who's still alive today; by following the safety rules, he hopes to stay that way.

Wilderness Ways

by C.A. Cake

SPEAKING OF FISHING

"...and were my feet ever cold." Even with a few minor complaints each year the same hardy outdoor type brave our northern climate to try their luck for that first meal of trout for the season.

Ice fishing seems to be the thing this time of the year. With approximately three feet of ice on the lakes this makes for a lot of work with the ice auger or chisel. The Indians had the correct method of using a piece of hard wood with a sharp stone lashed to one end for cutting through the ice.

An ordinary piece of steel with a good sharp point is much better than the wide type blade some manufacturers are selling. To cut a hole through the ice rapidly you must use a tool that explodes the ice - not one that cuts into it.

If an ice auger is used it should be left outdoors overnight. It is apt to chip the blade when struck against the ice if brought from a warm place a short time before. The auger should be kept rust free and sharp or it will not cut well. A regular whetstone should be used to sharpen it on the inside of the blade only.

Do not use an electric grinder as this will take the temper out of the steel. When you return home some liquid floor polish or wax wiped on it will prevent

Fish have a tendency to take the bait lightly during ice fishing season. Use a medium size bobber with enough sinkers attached to the line so it will be barely above the surface. Then when a trout takes the bait the bobber will move slightly below the surface. If it were high in the water a trout could take the bait and spit it out without your knowing it.

A few small pieces of wood painted black and dropped into the hole will absorb enough heat from the sun to keep the hole from freezing over.

I had the opportunity of speaking with our local fishery warden, John Preston, over the past week. Apparently some individuals do not know the fishing regulations for this district.

With regards to ice fishing only one hole may be fished at a time. The length of trout taken should not be under eight inches from the tip of the nose to the fork in the tail. No person shall knowingly take, kill, or injure, or attempt to take, kill or injure any fish that is immature.

The limitation of catches are: Trout - no more than twenty-four may be taken in one day, or the number of trout totalling in weight ten pounds, plus one fish, whichever is the lesser. No person shall have in his possession at any time more than the limit of two days fishing. In relation to the previous regulation this means forty-eight trout or twenty pounds, plus one (not two) fish, whichever is the lesser may be taken.

Lake Trout - no more than four in one day. Northern Pike - no more than twenty-four in one day. Arctic Char - no more than four in one day.

Incidentally, for the information of those fishing the lakes around Smokey Mountain the trout in these lakes are Arctic Char not speckles or brook trout.

The season is open from January 15 to September 15 both days inclusive. One new regulation has been added this year which states that no sporting fish taken by angling may be kept alive. If any person requires additional information I am quite sure John will be pleased to assist you at his office in the Mall of the Carol Lake Shopping Centre.

Any violation of the above regulations shall be subject to a fine or imprisonment or to both fine and imprisonment.

Protect the fish - they'll last longer.

SURVIVAL TIP-If you break through the ice or fall into a river during the winter when the temperature is below freezing try to get to shelter immediately. If there is no shelter available dig a trench or build a snow wall for a windbreak, then build a fire on a bough bed, so that it will not sink down as the snow melts. Cut enough boughs to make yourself a seat close to the fire.

Next, roll yourself in the snow thereby collecting it all over your clothing. Now undress and place your wet clothing away from the heat and in such a position that the wind and cold will freeze it quickly. When it is frozen stiff, break and crack off the ice. Then beat the ice dust out. Dry the clothing by the fire.

This procedure takes about an hour. It is a rough, tough method but it can save your life. The quick freezing of the clothing removes the moisture, and the fire soon puts things in order.

Scanning the market

By C.S. Devine

This week let us take a brief look at the Canadian Mining "Blue Chip" stocks. The giants of the Industry whose stocks presently sell in the \$25. - \$125. range. All pay dividends ranging from 2.0c. to 4.6c. Some people have the idea that these stocks, while solid, vary little in price and are strictly for the wealthy investors. Such is not the case.

Several examples: Hudson Bay Mining and Smelting, big in copper and zinc. High - Low 1968-1969, \$90 - \$54. Present price \$89. Twenty shares purchased last year at \$55 would be worth \$1,780. today, a gain of over 60c. With an indicated yearly dividend of \$4. per share, it not only has further growth potential but pays a 4.5c. return as well.

A somewhat similar situation is McIntyre Porcupine Mines Limited, the large gold producer. High - Low 1968-1969, \$130. - \$77. Present price \$121. Shares purchased at \$80. would now show a profit of over 50c. Not all major mining stocks have fared as well. International Nickle by far the largest Canadian Mining complex reached \$51. (after split) last year but skidded

to \$37. near year end. Present price \$40. However, as current expansion programs are completed, profits and dividends should rise.

Coming closer to home; Hollinger Mines is another that has shown satisfactory growth in the past year. From a low of \$26. stock rose to \$36. Present price \$35. Dividend payment has recently been increased from \$1.20 to \$1.40 per share. The main source of Hollinger profits are their interests in Labrador Mining and Iron Ore Company of Canada.

The uranium stocks, Denison Mines High - Low 1968-1969, \$84. - \$53. Present price \$58. Rio Algomina Mines High - Low 1968-1969, \$36. - \$23. Present price \$25. had disappointing although not unexpected records. Both stocks had been considered over-priced at their highs. Now that they are back to more reasonable prices, some analysts state they are again a good buy.

The No. 2 and No. 3 Canadian Mining companies Noranda and Cominco also chalked up impressive gains over the past year. These are fully integrated concerns with manufacturing facilities. Noranda has risen from a 1968 low of \$22. (after split) to its present price of \$36.

while Cominco almost doubled in price, from a low of \$22. to a high of \$41. Present price \$37. Noranda and Cominco are widely regarded as good growth stocks because of their extensive holdings in new mines.

Now for this weeks (3) Investment Terms.

(1) Stock Split: The division of the outstanding share of a corporation into a large number of shares. A 3-for 1 split by a company with 1 million shares outstanding would result in 3 million shares outstanding. Each holder of 100 shares before the 3-for-1 split would have 300 shares, although his proportionate equity in the company would remain the same, since 100 parts of 1 million are equivalent to 300 parts of 3 million. Ordinarily splits must be voted by the directors and approved by the shareholders. (2) Averaging Down. Buying more of a security at a lower price than original investment cost. Aim:- To reduce the average cost per unit.

(3) Profit Taking. Selling to take a profit - the process of converting paper profits into cash.

Next Week: Penny Mining Stocks.

Labwab

By T-Dor

For many weeks now, Labwab, indeed, all of Labrador has been subjected to the most disturbing type of propaganda imaginable. It has to do with spring, and the harbingers, thereof.

Sunday morning after Sunday morning we have heard CBC Maritimes gleefully reporting the first robin, the first palsy, the first bud, the first open water in some creek or other, and read of office people lolling about the lawns of Dominion Square in Montreal, students demonstrating in their shirtsleeves in St. John's and bare sidewalks in Halifax.

Now all this talk, as far as T-Dor is concerned is the old phonus bolonus. Spring in this neck of the woods is not a case of first robin, or lawns, or buds, or bare sidewalks, but rather is more conclusive examples. Spring harbinger (how's that for a word?) in Labwab is:

When the yellow monsters are all tied down by mud and slush. When the kids are wet instead of cold. It's when your hands get all red instead of lilly white from washing the car outdoors for the first time since September. Or you might say that spring is when the Convertibles run around with tops down when you yourself would have them up.

Spring is here wher. the beer bottle crop begins to poke its glassy buds from neath the black snow, and the cans and cardboard scrap lumber, old nails, October newspapers and tin cans show up in vivid contrast to winter's whiteness.

Spring is just around the corner when the Harley-Davidsons blast off on the new-found pavement, and brakes cause tires to screech for the first time in a while.

You can even detect spring when pedestrians start walking across that thirty square feet of mud at the bottom of your lawn, and the baby carriages are once again in the middle of the street instead of beside the curb where they belong.

You can bet that spring is well under way when the Wabush Plaza Lake appears and the Sir Wilfred Grenfell has a pond in the back yard. It's spring when your right front tire hits a hole eight inches deep with sharp edges, and your windshield turns to ice instantly when you pass a car in a puddle. It's spring when you drive five hundred feet toward Duley and discover you can't turn around, and can't go ahead.

It's a sure sign of the sunnier seasons when the cars taking the ditch from the Labrador Turnpike hit a big rock instead of a nice soft snowbank, and more cars appear in back yards than you ever knew existed.

Spring is when you shell out an extra buck you hadn't counted on to some unseen character in Ottawa, or wait for weeks for a licence to drive your car on 68 cent gas.

It's spring when the Labrador City Lions start giving opportunities to all the ice experts to say when they think the ice won't support that barrel anymore.

Spring is when the ski-equipped planes can't land on the lakes for a while, and Ben DeRosier can't get up to the Julienne Camp, and all his friends are scared to death that some poor innocent fish is going to get away on them before they can get to where they want to go.

You know, the worst harbinger of all is when Mrs. T-Dor starts packing the car in April, unpacking in May for something she needs, and packs all over again in June.

However, we don't mind, it will soon be time to fish, and we'll get there no matter what.

G'nite
T-Dor.

Sports Spotlight

By Derm Flynn

Broomball Action

With just a few games remaining in the regular schedule IOC Mill and North Stars are tied for top spot with nine points each.

Wabush Lab and Ravens are a close second with eight points. Chem Lab has seven points followed by Bowings and Admin with six points each. Hawks have three points and the Appollos are in the cellar with no wins or ties.

Results of last weeks action are as follows. Sunday, April 20, Bowings

defeated Chem Lab 2-1. Tuesday, April 22, Admin and IOC Mill battled to a scoreless draw. North Stars shut out Wabush Lab 2-0 and Ravens and Chem Lab had a scoreless tie.

On Wednesday, April 23, IOC Mill downed Hawks 2-0, Admin squeezed by Bowings 1-0 and Wabush Lab defeated Chem Lab by an identical 1-0 score.

Friday's and Saturdays games were cancelled because of mechanical problems at the arena.

Bowling Teams to Compete

Plans are underway to have two teams compete in the All-Newfoundland ten pin bowling championships. A team of ladies and a team of men will carry the Wabush colors to St. John's in an attempt to capture some of the provincial silverware.

The mens team is already practicing on the Recreation Centre lane and it looks like they will be strong contenders.

The ladies will start working out later this week when plans are finalized.

The tournament will take place at Holiday Lanes in St. John's on the 28, 29 and 30 of May.

Improvements Planned for Sports Facilities

The Wabush Local

Improvement Committee has plans to make some improvements to the outdoor sports facilities this coming season.

A fence and excavation for the softball field are in the plans. The committee is

also planning to install lighting facilities on the tennis courts. With these

improvements in the present facilities a good season of tennis and softball looms ahead.

Teen Tempo

By Krystyna Feretycki

Our senior boys played a basketball game against Labrador City Collegiate here Friday, April 18 and were soundly beaten 40-29. Although the LCC team took the

game in points our boys completely defeated them in the "difference of opinion." Anyway, congrats to LCC for putting up such a good show.

We would like also to congratulate Tim Baxter, John LaCour, Gerry Barron, Jim Hearn, Barry Saunders, Finty March, Paul Martin, Gary Munn, Rich Perry, Mike Perry and Ken March members of the JRSC squad.

The two teams tangled again on Tuesday, April 22 that time at the Labrador City Collegiate and we barely lost that one by a score of 17-16.

On Wednesday, April 23 the senior girls played a game - supposedly against the female teachers. Teachers won by a score of 21-19 which was hardly expected. Some people attribute the victory to the efforts of two unfamiliar damsels.

Everyone knows by now that the two imposters were none other than Mr. Sam Walters and Mr. Tom Farrel. It seems they were hard up for an occasion to show off their poise and good looks. It's surprising what an improvement a good session at the beauty salon can make.

Curling

Laverna Gallant one of our graduating students won a trophy, donated by Inter City Transport for winning in the "A" event in curling. Wendy Porter of grade nine won a Newfoundland pin as runner up in the "A" Division competition.

Drama Club

Ten students from the Drama Club took part in the annual high school drama festival held at Corner Brook April 17.

Although we didn't take any awards the presentation was well received. Also we would like to congratulate the Labrador City Collegiate entry which captured four of the six awards.

The J.R.S.C. entry was "Save With Two Faces" and the cast consisted of Jim Hearn, Bev Porter, Dave Barron, Julie Ambler, Josie Niel, Garry Munn, Gloria Hawe, Wayne Carnell, Olive Gosse and Mr. L. Moss was director.

Talent Show

The semi-finals of the talent contest was held Friday, April 25 in the gym of the Recreation Centre sponsored by the Kinsmen. Six of our students will be competing in the finals. They are Mary Archer, Bruce Adams, Tim Cole, Theresa O'Leary, Kenneth Dicks and Joanne Lorde. The finals will take place Friday, May 2 at the same place.

Coming and Going

Laverna Gallant and Sheila Martin represented JRSC at the Allied Youth Conference at Corner Brook recently. We trust you girls didn't overwork yourselves and enjoyed your trip.

See you in two weeks.

BIRTHS

Bernie and Jamie (Nee Smith) MacDonald, of Labrador City, proudly announce the birth of their twin sons, James Russell, 3 pounds 11 ounces, and Leonard Joseph, 3 pounds seven ounces, on March 8 at the Captain William Jackman Memorial Hospital.

Our best wishes to Harold and Peggy Bosche who celebrated their first wedding anniversary on April 20.

Mrs. Rita Humphrey returned to her home in Moncton, N.B. on Monday.

She had been visiting her son, Ted Humphrey of Wabush and daughter, Mrs. Nancy Steeves also of Wabush. Nancy accompanied her mother for a 2-week vacation in Moncton.

Happy birthday to Mrs. Etta Little who celebrated her -th last week.

Our apologies to Ron Brophy for the misinformation printed in last weeks Aurora. His accident occurred while repairing the pin setter machine.

PERSONALS

Mr. Eric St. George, manager of the Carol Curling Club, left Labrador City on April 16 to take a brief vacation at home, in St. John's. On May 1 he will assume a new position with the golf club in Bathurst, N.B.

Father, Son banquet

The Labrador West Minor Hockey Association will be holding their annual father and son banquet at the Sir Wilfred Grenfell Hotel Monday, May 5.

Tickets are available from all schools in the area. A limited number are available.

THE FIRST ORGANIZATIONAL MEETING OF THE LABRADOR WEST LIBERAL ASSOCIATION IS TO BE HELD AT THE WABUSH RECREATION CENTER ON THURSDAY MAY 1st at 8:00 p.m:

The purpose of the meeting is to form a District Liberal Association and to elect its executive Officers. Those Officers will be:

President, Three Vice-Presidents, Secretary and Treasurer

Those elected will work with the association to formulate Liberal Policy and activities of the Labrador West District. Those elected will automatically be delegates to the Annual Convention to be held in 1969, by virtue of the constitution adopted at Grand Falls.

Come with the intention to participate by either supporting those nominated or seek office yourself.

Any Liberal who wishes to join our Association is invited to come. Membership will be available at the door. Please come and bring as many as you can who wish to join.

The Premier of Newfoundland and Labrador, The Honourable Dr. Joseph R. Smallwood will be in attendance.

THE PLACE: Wabush Recreation Centre. THE DATE:

Thursday, May 1st. THE TIME: 8:00 p.m.

The Entertainment Page

Mind Teasers

The Problems

- Two square pieces of wood of different sizes have a combined perimeter of 92 inches. If these two pieces of wood are set one against the other, the outside perimeter of the figure formed is then 74 inches. What does one side of each piece of wood measure?
- There are two numbers that total 176. If 3 times their difference is 42 more than the larger number, what are these two numbers?
- Betty's age today is the same as the difference between 3 times her age 3 years hence and 3 times her age 3 years ago. How old is Betty today?
- My petty cash box contains an equal number each of nickels, dimes, quarters, half-dollars, and one-dollar bills, amounting to \$41.80 in all. How many of each are there in my petty cash box?
- If I were to sell 4 acres more than $\frac{3}{5}$ of my land, and this left me with $13\frac{1}{2}$ acres less than $\frac{1}{2}$ of my original acreage, how many acres do I now own?
- A motorboat can travel 9 miles down a river, which is flowing at a rate of 3 miles an hour, in the same time it takes to travel 5 miles upstream. How fast can this boat travel in still water?

SOLVE A CRIME

The very distinguished, but cold-looking Willard Eaton conducts you along the gravel walk leading to the wooded area of his country estate. "I've had quite a bit of trouble from time to time with trespassers in these woods," he tells you. "And since I'm particularly proud of this property of mine, I don't like the idea of these vagrants sauntering through my woods and littering the area. I warned this particular fellow several times to get out . . . I thought he had gone. But evidently he hadn't . . . and now he's dead, an obvious victim of accidental drowning."

You now arrive on the dusty bank of a little pool situated in a clearing in the forest, and at the side of the water, clad in filthy-looking dust-covered clothes, lies the body of a man, his long, straggly, black hair water-soaked and his unshaven face covered with mud. You also notice he is not wearing any socks and that one of his dusty shoes is minus a shoe lace.

Eaton resumes his story. "I was walking along here about thirty minutes or so ago, and found him floating face-down in the pool. I pulled him out of the water, saw immediately that he was beyond any hope of resuscitation . . . so I hurried back to the house and called you. I'm afraid I got myself into a rather messy condition when I tried to help the fellow," and he calls your attention to the sleeves of his jacket which are wet to the elbows.

"I wonder how this could have happened," you muse aloud.

"It's possible he may have suffered a heart attack," says Eaton. I did notice during the several heated exchanges of conversation we had—when I told him that either he get off my land or I would call the police—that he had a very poor color in his complexion. Certainly he wasn't the picture of a very healthy person. It could be that he was bending over the pool getting himself a drink of water, had a sudden heart seizure, and toppled in."

"That's a very interesting conjecture on your part," you say. "However, I happen to know this man did not die that way . . . that more than likely he was murdered . . . and that you know something about it!"

What has led you to suspect Willard Eaton's story?

Mind Teasers

The Answers

- 9 and 14 inches. one-fourth the perimeter of the smaller piece is missing from the perimeter of the new figure. Multiply 92 by 4, and subtract the product of 74 and 4 from this; divide by 2 for the perimeter of the smaller piece of wood.
- 63 and 114. Letting X equal smaller number and (176 minus X) the larger number, form equation: 3 times (176 minus 2X) equals 176 minus X plus 42. Solve for X, the smaller number.
- 18 years old. Letting X equal her present age, form equation: X equals 3 times (X plus 3) minus 3 times (X minus 3). Solve for X.
- 22 of each. Simply divide 41.80 by the sum of 0.05, 0.10, 0.25, 0.50, and 1.00.
- 95 acres. Letting X equal present acreage, form equation: $3X/5$ plus 4 plus $X/2$ minus $27/2$ equals X. Solve for X.
- $10\frac{1}{2}$ m.p.h. Multiply 9 and 5 each by 3; add these results, then divide this result by the difference between 9 and 5.

SOLUTION TO SOLVE-A-CRIME

Had Eaton found the man's body floating in the pool, as he told you, the victim's clothes would have been wet-not dust-covered as you found them. Only his hat was wet and his face covered with mud. Eaton's ready explanation that the man must have suffered a heart attack while bending over the pool is too pat a story. The fact that Eaton's sleeves are wet leads you to suspect that he could have stolen up behind the man while he was drinking from the pool, overpowered him, and held his head under water until drowned. Certainly that seems the only way Eaton could have gotten his sleeves wet.
