## The youth column

BY SHARON BRYANS

On Friday, April 3, there was a teenage dance held at O'Brien Hall, the music was provided by the IRIIN Drum, this was a very successful dance due to the large crowd in attendance. There was also a teenage dance on Sunday, April 5 at the O'Brien Hall and music was again provided by the IRIIN Drum. Both dances were a great success due to the fact that no teenage dances had been held for some time.

Monday, March 30th, the Labrador City Collegiate Curling Club left Labrador City by train for Sept Iles to compete in a bonspiel there. The train was scheduled to leave at 4 p.m. but did not leave until an hour and one half later, so the curlers had a long wait, which they suffered from as they had to curl early the next morning, and on their return they also had a delay of one hour.

The six teams from Labrador City stayed in Sept Iles until Thursday and returned on Thursday night. Other teams entered were from Port Cartier and Sept Iles. The local curlers were billeted in homes of the curlers in Sept Iles.

There was dance at the Sept Iles Curling Club on

Wednesday, April 1st for all the students participating, music was provided by the MC3, a Sept Iles rock group. The Sept Iles teams won the A, B and C events and they were runners up in everything else. Even though the host teams took all the trophies, our teams made up for their losses by having a good time.

The Labrador City Collegiate, Drama Club is now perfecting their production of "Still stands the house," which they will present in Corner Brook on Saturday, April 17th. The cast and directors will leave here on Thursday, April 15th, by way of EPA. They will be billeted at actors or actresses homes in Corner Brook. They will be participating in the High School Drama Festival. There will be eight plays entered, one from Wabush, one from Labrador City and six from high schools on the Island.

There will be performances on Friday night, Saturday afternoon and then on Saturday night the local group will produce their play. The performances will be held in the Arts & Culture at Corner Brook, which has a seating capacity of six hundred. This promises to be a very exciting weekend for the students, and I am sure that everyone wishes them luck and success in the Festival.

On Holy Thursday, March 26th, through the kindness of Reverend Father Laperriere, O.M.I., 71 second grade students from the English Section of Notre Dame Academy, received their First Holy Communion. The special Mass for the occasion was celebrated at 9 am by Reverend Father Engle, O.S.B., in Our Lady of Perpetual Help Church. The students were accompanied by their teachers Miss S. Dwyers, Miss F. Gatherall and Mrs. J. Henry.

# Fire permits needed

After April 14, permits will be required by all persons wishing to light fires for brush burning or other similar purposes, according to an announcement from Resources Minister W.R. Callaghan.

Burning permits may be obtained from the Newfoundland Forest Service, Building 951, Pleasantville, St. John's, or from any Forest Ranger Station, and also from the Royal Canadian Mounted Police.

Section 3 (1) (a) of the Forest Fires Act states that between the period April 15, and December 1, 1970, burning permits are required for outdoor fires lit for any purpose other than for cooking or obtaining warmth.

The Minister noted the need for caution even at this early date, to reduce the danger of grass or brush fires.

# Girl Guide report

In the 1st Wabush Guide Company, Wanda Jennings was presented with her 1st class badge, and Cheryl Honsberger received her second class. Child care badges were presented to Gloria Carter and Laura Brace. Rosemary Hearty of the second Wabush Brownie Pack received her skaters badge. As their service project, the 3rd Wabush Brownie Pack presented Easter Baskets to the children in the Jackman Memorial Hospital.

In March, the 2nd Wabush Girl Guide Company enrolled, Sharon Pitcher, Sharon Keating, Susan Taylor, Diane Mills, Valerie March, and Anne Marie Hayward. The following badges were presented: Little House Emble, Carol Ann Hearn, Hostess, Laurie Harty, Child Care Badge, Alice Pardy. The Guides of the 2nd Company collected \$15.00 for their penny parade for the World Friendship Fund.

**GREENER DAYS AHEAD:** While our southern friends watch for the tulips and focus to make an appearance heralding the approach of Spring, not so in our area, each adult and child look for signs like the one above, we were lucky, we caught the first one, Spring is on its way?????

# On the local scene

The Red Cross Water Safety Swimming Classes at the Wabush Swimming Pool are continuing. New classes start the week of April 20th and this week will be completed by the week of June 15th. Applications are available at the Recreation Centre Officer or Wabush Mines Safety Office, the following schedule will be in effect: Monday, April 20th, 6 to 7:30 pm, Men's Junior and Senior, Tuesday the 21st, 7:30 pm Ladies Junior and Senior. Wednesday, the 22nd at the same times, Ladies Beginner and Ladies Intermediate; Thursday the 23rd, 6 to 7:30 pm, Men's

Beginner and Men's Intermediate.

The Labrador City Local Association of Guides and Brownies will be holding a meeting in the Staff Lounge of the Labrador City Collegiate on Monday, April 20th at 8 p.m. Parents and interested persons are invited to attend.

Mrs. Grace MacDonald wishes to thank her many friends who sent flowers, cards, letters and telephone calls while she was a patient in the Moncton City Hospital. A special thank you to her "little friends", the many children of Labrador City who sent warm messages and greetings. Mrs. MacDonald has been moved to the St. John's General Hospital, St. John, N.B. where she is undergoing specialized treatment.

### FAMILY LIBRARY WEEK

Family Library Week will be held April 20th to the 27th at the Wabush Regional Library. During this week the library will be open every night from 7 to 9 pm, Monday through Saturday. No fines will be imposed on overdue books returned during the week. The library is situated upstairs in the Recreation Centre, recently added books are: The Store Timothy Built, A Story About The T Eaton Company, Grey Sea: Under By Farley Mowat and Exploring Canada from Sea to Sea, How To Stay Slender and Fit After Thirty by Bonni Pruden, Alaska, Come Ski With Me, Book Of Diamonds, Their History and Lure, plus many more selections. Why not drop in to the library and see what it has to offer.

An Art Exhibition will be

held in the Art Room of the Labrador City Collegiate on Tuesday, April 21st from 7 to 10 pm. Art work on show will be by the students of grade nine to eleven. While this is the first exhibition of this nature it is hoped that it will become an annual event.

Mr. A. Tobin, Chairman of the Easter Seal Campaign recently announced that the financial drive was a success. Mr. Tobin extended thanks on behalf of the Easter Seal Committee and the Society for Crippled Children and Adults, to all the canvassers who so kindly gave of their time and endured the weather to make the Campaign such a success, also the members of the LOA, K of C, C.W.L., the Ladies Auxiliary of the Royal Canadian Legion and the Knights of Columbus. A special word of thanks to Mrs. Tom Woodford of Wabush for heading the Wabush Campaign. Mr. Tobin also expressed his appreciation to the local business establishments for their support, and to this paper for publicity and to all the kind and considerate people who donated to this very worthy cause.

## Miss Teen

WABUSH: Jana Jorgenson, 17-year-old high school girl from Kitimat, B.C. was crowned Miss Teenage Canada for 1970. She won the title after judges selected her from 19 other contestants in the second annual Miss Teenage Canada Contest. Miss Jorgenson is wearing a dress designed by Jewel McAvany 17, of Wabush. Runner-up was Patricia Samuels 17, of Ottawa. The title carries with it a \$2,000 bursary, a scenic scholarship and an annual \$5,000 in gifts. Patricia Pearcey, 17 of St. John's was Newfoundland's representative in the contest.

### DRILL HOLDER

An efficient holder for your electric drill can be made out of a metal pipe and a fixture base. A ceiling screw may also be used for this purpose. Cut it off at the chuck of your drill, then screw it down to your workbench.

## Editorially speaking

Spring, it seems is just around the corner, and so are the army of door-to-door salesmen that converge on the area from all parts of Canada. Within this past couple of weeks two out-of-town salesmen were apprehended by the RCMP for selling without a licence, although the court was obliged to dismiss the charges on a technicality, the salesmen in question, were not registered under the Direct Sellers Act, of Newfoundland and did not have a Hawkers and Peddlers Licence to sell within the Local Improvement District, in addition to this they were not collecting the SSA Tax on sales.

Two salesmen operating in Labrador City and Wabush now are gaining admittance to houses under the pretext of conducting an advertising survey, in actuality they are selling sets of Colliers Encyclopedias, and to get your assesment on advertising they will give you a book free, but the total cost of the complete set is approximately \$500.00.

This is only the beginning, from now on we will have all kinds of this type in town, from fraudulent magazine subscription agencies to peddlers of junk jewellery. If you want to deal with unknown salesmen, it's your business and money. While all salesmen are not dishonest, we would like to pass along some advice: When a salesmen calls at your door, ask to see both his provincial licence, required under the Direct Sellers Act, and his Hawkers and Peddlers Licence required by the town of Labrador City and Wabush. The only salesmen exempt from this are investment and insurance, they are required to register and obtain a licence from the Registrar of Securities in the Province of Newfoundland.

Never sign a blank contract, this is one of the mistakes that many people make. Remember that even if you have signed a contract, you have a ten day "cooling off" period in the Province of Newfoundland and Labrador, this means that within that period, should you decide that you do not want the merchandise, by writing the Company concerned, and we would suggest registered mail, the contract is automatically cancelled, and any deposit that you may have made should be refunded.

It is not easy to distinguish between honest and dishonest salesmen, so the easy thing is to deal only with salesmen you know, or have proven to your satisfaction that they are representing a legitimate business.

**Grand Falls (Nfld):** A magisterial inquiry into a complaint from a man working with Bowaters in Glenwood, has been promised by the Minister of Labour W.J. Keough. Ewart Shea, a machine operator in the woods at Glenwood says he was forced to leave his job because the machine he was operating was unsafe. Mr. Shea said the wood slasher had no lights or guards and he was operating a night and had already received injuries on two occasions because of this. Mr. Martin Saunders, vice president of the Newfoundland Federation of Labour says that Mr. Shea had a legitimate complaint and he is in the process of carrying out an investigation. He has already talked with Mr. Keough who said has promised a magisterial inquiry.

**Ottawa:** A committee to press for more low cost accommodation to facilitate youth travel in Canada is being formed by the Canadian Service for Overseas Students. The committee headed by J. Allan Rix of Toronto, executive director of CSOS and John Kerr Wilson of Ottawa, will seek to convince the Federal government, church and school officials of the need to establish a system of youth hostels similar to the extensive one which now exists in Europe.

**Cape Kennedy:** The United States Air Force launched two watchdog satellites into space recently, to report on any sneak violation of the nuclear test-ban treaty. The satellites are capable of peering millions of miles beyond the earth.

Contracts and purchase orders worth \$10.5 million have been awarded for the Churchill Falls hydro-project. The announcement was made by Churchill Falls (Labrador) Ltd. Desourdy Construction of Quebec has been awarded a \$3,500,000 contract to carry out final surface preparation and grading of the switchyards and building concrete foundations for the equipment and

## Here 'n' there

structures. Janin Construction of Montreal will build the adjoining power-house surface structure housing the control and administration centre. The contract is valued at \$2,260.99 Standard Structural Steel also of Montreal received an order valued at \$1,390,000 to supply the steel for the 230,000 volt and the 735,000 volt switchyard structures. Matthew Shipping Company of Montreal and St. John's received \$120,000 to transport reels of cable from the Alcan Plant at Stephenville to Sept Iles. This cable is for use in the first of two 735,000 volt transmission lines.

EPA will add nine points to its service, that was the release from the Canadian Transport Commission recently. It amended the licence of Eastern Provincial Airways (1963) Limited, allowing the airline to add nine points to its service in Labrador. The stops are Big River, Makkovik River, Reeds Pond, Labrador Wild Camp, Camp 1155, Park Lake, Separation Point, Anne Marie Lake and Michaels River. The majority of the stops are being provided in the hope that sportsmen can be enticed to come into the area. Flights to the above points will originate from Goose Bay.

**NEW DELHI (India):** In the classified ads, between situations wanted and educational opportunities, waits the girl of a young Indian's dreams: "Graduate, good-looking, healthy virgin of 24. Knows cooking, painting, needle work, knitting; Father is a factory owner". Candidates for the fair lady's hand are invited to correspond with full particulars to a box at the Hindustan Times. Although social customs are changing in India, advertisements under the heading, "Matrimonial" remain a practical and popular means of matchmaking. "It's sensible from every point of view, says an Indian who has found three sons-in-law that way. "You break the ice between the right people and in the right way. Young people like it because they're too shy for dating in Western Style. Parents like it because they can stop a bad match before it gets started." This endorsement is born out in the classified sections of Sunday newspapers. A recent edition of the Times carried 312 matrimonials. One family sought mates for three sons, the only specifications, the brides be pretty and available for early marriage. Matrimonial advertisements are not noted for modesty. Virtually all girls are beautiful all men handsome. Virtues are freely stated, not only in appearance but in talent, education and worldly assets.

The placing or answering of a matrimonial is only the initial step toward marriage. Each candidate's claims are examined with painstaking care before the negotiations reach a serious stage. The marriage is not usually sealed until approval is won from the bride, groom and both families.

An official of the Golden Eagle Refinery at Holyrood has stated that no major oil pollution has occurred in the Holyrood area. The statement was made following an announcement that pollution control equipment costing more than \$5 million will be installed in the new refinery being built by Golden Eagle at Romuald, Quebec. The spokesman for the Holyrood operation said that while the plant does not have all the pollution control devices that the new one will have, the present equipment is totally adequate to prevent major pollution. The Holyrood refinery complies completely with the provincial pollution control legislation, the company official said.

**NEW YORK:** Worse than a Mule, The Llama, South America's beast of burden, can be even more obstreperous than the mule or the camel. If more than 100 pounds is loaded on it, it will bite, kick or spit at its drivers, or simply sag to the ground and lie there groaning.

**VANCOUVER:** The British Columbia Supreme Court ruled last week that the federal compulsory breath test law invalid.

Mr. Justice F. Craig Munroe, hearing an appeal by David Story of Vancouver against conviction for having a blood-alcohol content higher than .08 per cent, said certain parts of the legislation were never properly proclaimed. He said specifically that a provision that would have required police to provide an accused person with a breath sample for testing by his own analyst was not proclaimed.

The legislation which came into effect January 1st, makes breath tests compulsory for persons suspected of impaired driving. Persons refusing the breath test can be charged with failing to take one.

Mr. Justice Munroe said the law, without the provision for second sampling, was possibly detrimental to an accused person.

Justice Minister L.R. Curtis of Newfoundland said later, the British Columbia Supreme Court Decision that the breath test was illegal "was not entirely unexpected". "My department has been a bit doubtful all along. It will probably go to the Supreme Court of Canada and then we'll know for sure."

# Scanning the market

BY C.S. DEVINE

Good to be back to "Scanning the Market" after our visit to Western Europe and the Madeira Islands. While out of the country the long awaited drop in U.S. interest rates came about. It was good for a 30 point rise in the Dow-Jones average. However the Dow seems to have levelled at 790-795, which is still below the 800 at the beginning of the year. The important thing to look for now is first quarter earnings reports. If they have held reasonably well, we may see a further advance; if on the other hand profits have dropped considerably, the market could be back to the lows of February past.

As to our own local fund, I hoped to review it as of 31 March but was unable to come up with a financial paper for that date. Next week we will look at results from January 1 - April 15 1970.

The most obvious value at the moment is in the

bond market, fixed-income securities generally and common stocks of companies beneficially affected by the change to lower interest rates. As one investor said recently: When you can get 9.5 - 10.0% on top-quality bonds and mortgages guaranteed for 20 years, who needs an investment analyst?

Anyway, the most gifted crystal-ball gazers seem somewhat confused on the outlook for business. The standard forecast still is for a pickup later in 1970. The record of the standard forecast has been anything but good. Indeed, some people employed with investment houses use it as a guide to what is not likely to happen. Perhaps this is because it is a standard forecast, and therefore anyone's view.

As to the economy slowing down, however, there is no longer any doubt about that. It has been slipping since October. The appropriate concern, rather, is over the duration of the decline and the vigor of the

ultimate rebound. Faced with this situation, it is a little difficult to get wildly enthusiastic about common stocks. About all one can say now is that they are a good deal lower priced than last summer and much below this time last year. The best strategy at the moment seems to be at stand aside and watch, to look for oversold value and to invest in high interest bearing bonds.

One does not have to possess postgraduate degrees in economics to know that, if business is turning down, interest rates are going to ease, and that such a move should cause a rise in the bond market, not necessarily a rising stock market. We have been so caught up in the cult of the equity, however, that any beneficial move is taken as good for stock prices. One good thing that should come out of the present debacle is that serious investors will get off the equity kick. They will perhaps start to look at stocks for what they really

are, risk investments with an unknown potential and not an area for everlasting growth, or inflation hedges or any of that other nonsense to which we have been treated these last few years.

As per a request we will again publish a weekly "Investment Terms and Definitions;" a question and answer guide on Canadian stocks and bonds. Q. What is an investment? A. An investment is money employed for the purpose of earning for its owner some real benefit such as income, profit or service or a combination thereof. The term investment capital

describes the funds which are available for such use. Q: How is investment capital created? A. It is derived from the savings of individuals, corporations and governments. Such savings are potential investment capital since these funds may be employed in a manner which will earn interest or dividends or produce capital gains.

In recent years institutions such as life insurance companies, pension funds and mutual funds have become large suppliers of investment capital. The source of the money at their disposal is actually the savings of individuals.

## Cancer Society holds its annual meeting

The Labrador West Branch of the Canadian Cancer Society held its annual meeting at the Town Hall on Thursday, April 2nd.

Mr. George Warren, president of the Newfoundland Division spoke of the aims of the Society, to prevent cancer, detection at an early stage, to assist cancer sufferers and to conduct research for further cures.

Wabush and Labrador City residents who patronize their respective libraries will have used the bookmarks issued in the campaigns to prevent lung cancer.

Distribution of pamphlets, posters television and newspaper coverage along with the use of films have helped to educate the general public in the need for annual medical examinations to detect cancer in early stages, when it can be cured. During 1969, 50,000 pap smears detected 79 cases of cancer in women in Newfoundland, a solid step forward in the alleviation of

this dread affliction.

In St. John's a comfortable hostel is maintained for the use of cancer sufferers who are being treated. Well over 500 people were accommodated during 1969. Volunteer workers throughout Newfoundland make dressings which are distributed free of charge to any cancer patient in the Province.

The Canadian Cancer Society provides funds for research for further cures for cancer. The cobalt bomb treatment was developed by a Canadian under the auspices of the Society. One of these is being used in St. John's at the present time with the addition of a second in the near future.

Mr. Hedley King, the executive director for Newfoundland Division mentioned that the growing media used by scientists in cancer research had proved to be the answer for the manufacture of the Salk polio vaccine. A short film on the growth, warning symptoms and the cure for cancer was shown. Mr. King conducted the election of officers for 1970, the following were elected. Leo Martin, President, George T. Hickeringill, Vice-President, Mrs. Irene Tilburn, Secretary, Robert Dowden, Treasurer, Patrick Congden, Educational Chairman. Directors are: Magistrate Rowe, Jim Lafitte, Lamont Parsons, Cyril Sheppard and Eldon Swyers.

# Carol Consumers hold second meet

Thirty-five residents of Labrador City and Wabush attended the second membership meeting of the Carol Consumers Association in the basement of the RC Church, Saturday afternoon past. Chairman for the meeting was Pat Mullins, with the agenda covering everything from grocery delivery service, poor quality of perishable goods and leading prices. Mr. Mullins noted excerpts from the report of the Newfoundland Commission on Food and Drug prices and at the same time noted that the Federal Government in 1966, paid a

subsidy of \$287,000 to the operators of the Bell Island ferry to offset the freight costs on consumer articles across the tuckle.

He could see no reason why the Federal Government could not subsidize freight rates into this area.

Residents present were urged to send all their complaints about prices or service to the Consumers Association. Six additional members were appointed to the Committee at the request of the Executive. Other meetings are slated to be held in the near future.

WABUSH SHOPPING PLAZA

**SAGE OF MATRIMONY:** An elderly playboy brought his young bride-to-be to the church, where the ceremony was to take place. "I'm sorry, sir," he was told by the clergyman, "the font is at the other end of the church."

"But this is where you said you would marry us!" exclaimed the old gent.

"My mistake," apologized the minister, "I thought you'd brought the young lady to be christened."

**THE LOCAL BANK:** A man asked the bank manager for a loan. "Sorry," the manager said, "but we only lend money for home improvement."

"But this is home improvement! I want to send my teenage son to Australia."

**FROM A NEWS COMMENTATOR:** "With-car as our status symbol we have allowed ourselves to become what might be called the Pollutcrats."

**THE EQUAL SEX:** From Mrs. Barbara Castle, Britain's Secretary of State for Employment and Productivity: "We do not consider it preferential treatment for a woman to be given time off to have a baby we would do the same for men if only they had courage to have babies."

**DAFFYNITION:** Tranquilizers: "Shock absorbers."

**TOPLESS STOCKINGS?**  
I agree with the gentlemen  
Whom I have heard  
Give opinions about women's dress,  
And speaking of females  
In slacks have inferred  
Those who wear them should be bottomless.  
But conversely I hasten  
A point to be made  
Of the man who on weekends cavorts  
All over the place  
With his bare knees displayed:  
There are some men who shouldn't wear shorts!

**AS ADVERTISED:** "I have a complaint," said the tourist to the Florida motel owner, "In your ad you said there was a nip in the air at night, and I'm smothering!" "There's a nip," drawled the southerner. "Just look at those mosquitoes!"

**THE NATION'S BUSINESS:** From Hansard, House of Commons, Ottawa. Mr. S.E. Paproski. "In view of the government's austerity program, will the Minister of national defense please inform the house why electric eye magnetically controlled toilet flushers were installed in place of manual flushers in the officers quarters at headquarters, Ottawa?"

**BEAUTIFUL DREAMER:** A beautiful girl dreamed that a handsome man appeared at her bedside. He pulled her from the covers and carried her away to a new convertible waiting at the door. He drove swiftly to the country and, pulling into a secluded lane, turned to her.

"What are you going to do?" she asked, quiveringly. "How should I know?" he retorted, "It's your dream."

**THOUGHT FOR TODAY:** From Allan MacEachen, Minister of Manpower & Immigration: Provided inflation can be overcome and in the absence of domestic or external crisis, there is no reason why the expansion of the Sixties should not continue into the Seventies.

**ANARCHY IN FASHIONS:** "The lack of rules on clothes reflects the lack of rules anywhere else; and this bit, is one we can enjoy."

**DUST COATS:**  
How do girls keep  
The hems of maxis  
From getting soiled  
On floors of taxis?

# Manpower Report

## What's out west?

Probably the most common daily question put to your local Manpower representatives is "Where are the jobs in British Columbia?" To many people in Labrador West, British Columbia is the land of milk and honey, high wages and a better life. Realistically, the province has many mining operations which can utilize the skills of mine employees. Also, workers hope to find the same standard of living in the Western province that they have found in Labrador.

We certainly do not wish to encourage Western migration. In many cases the South-West grass looks greener to many people during the winter months but these restless dreams of moving begin to melt with the advent of the warm April sun. However, this article is dedicated to those restless souls who are going to move anyway and want more information on how to go about getting there.

If one is going to move, it is best to pick a specific area, or one small area at a time in which to obtain information. We sometimes receive letters from residents of Labrador West which have been sent to our Vancouver office simply asking what the job opportunities are like anywhere in B.C. The question is much too general and very difficult to answer. So, it is better to be specific and choose specific areas in which to obtain your job information. If you are specific we can find out within a short period of time if openings exist in this specific area for your particular trade. We also have detailed descriptions of all the areas within close proximity of every Canada Manpower Center in Canada. Thus we can give you a detailed

description of almost every major town in British Columbia, which includes a list of major employers.

Once you have picked your particular area and selected a number of companies to which you can write it may help to keep in mind that there are two basic kinds of worker qualifications, namely concrete and abstract. If you are a journeyman tradesman your qualifications are very abstract. Although this description is very much simplified, it is important to keep in mind that concrete job applicants have the best chance of obtaining jobs by mail without an interview. Abstract applicants cannot usually be hired without an interview because personality assessment is required by the employer.

Another factor that should be expected by an applicant from Labrador is that in many cases companies will write back explaining (even in the case of concrete journeyman tradesman) that workers are available closer to the job site or that workers with your qualifications are available in that particular province. These letters usually end with the suggestion that "if you are ever in the area, drop in and see us." Although some might take this line to be a put-off it can actually be a foot-in-the-door for a prospective job applicant. Many applicants who have received such letters have followed up with a job interview while on holidays and have often been successful.

To sum up, it is best to first determine where the jobs are and where to write. Helping local job hunters with this information has been a

problem for us in the past but we are gradually becoming better equipped in providing Western job information through the assistance of the Pacific Regional Manpower Division which is the head office for Western Manpower Centers. Other provinces are beginning to channel information to us on occupational shortages which is also helpful.

Once you have determined which companies you wish to approach, you must then send them a detailed job resume listing your experience and talents and giving the company an idea when you might be available for an interview. You must expect that few job confirmations can be obtained by mail. Your main goal must be the lining up of job interviews.

Perhaps more people from our community should take a holiday in British Columbia and have a good look around. Green grass can turn a little brown when one looks at it real close. When we go to British Columbia this summer we should have a close look, not at the Rockies, but at those dirty old mining towns in which we decide to accept work there. Maybe there is something to mining town planning, for it certainly is true that many young towns look all alike after a while. I'm sure that after a good holiday of pros and cons, Labrador West would still be best. For information on places West, contact your Wabush Canada Manpower Center, Phone 282-6932.

# Speaking of Sports

By JACK DROVER

Hockey fans in the area were treated to a top display of hockey by the Val D'or Olympics over last weekend. The Olympics won the series in 2 straight games, Saturday nights games 6 to 3 and 13 to 2 drubbing of the Carol Lakers on Sunday afternoon.

In this game the Olympics scored 8 unanswered goals in the second period. On Saturday night the Olympics started early and opened a 3 to 0 lead at the end of the first period. After the second period it was 5 to 2 with each team scoring a goal in the third. This was an excellent hockey game as the play was up and down with the Olympic superior conditioning proving to be the difference between the two teams. The Olympics never stopped skating and their precision passing and puck control left many of the fans in awe. The game was also high-lit by some top notch goaltending by Rene Lafreniere of the Olympics and Michael Rene in the Lakers net.

Over the route the Lakers outshot the Olympics 47 to 44. Six players scored for the Olympics with Jeanot Laliberte, Gilles Pilon, Luc Siquin, Fred Nolet, Fern Harvey and Norm Furlong all having singles. Gary Prichett scored two for the Lakers, with Jack Drover scoring the other. Pickup, Dick Power had 2 assists. On Sunday afternoon the Olympics broke open a close game with those 8 second period goals. It was 2 to 0 after the first and the Olympics were all over the ice as they put on a relentless display of forechecking and backchecking. Many time a 3 to 1 rush by the Lakers would end up 3 on 3 as the Olympics backchecked. Jean Paul Veilleux and Duncan MacDonald scored 3 goals each to pace the victory with Furlong and Pilon adding 2 each. Sequin, Harvey and Yves Caouette scored singles while Jean Letourneau and Jack Drover scored for the Lakers. There was 13 penalties in the game with Hunt Traverse, Sequin and Allard picking up fighting majors. The fans who attended were treated to the best hockey of the series in the first period of this game.

Personally, I thought the attendance was a little disappointing, especially in the second

game. The fans in the area seem not to be content to watch a good hockey team but rather would watch a sloppy victory as was the case in the recent series against St. John's. Hockey fans have been crying all winter for more hockey and when a series of this calibre was lined up, many of them gave up after the first game.

## MINOR HOCKEY PLAYOFFS

The Kings defeated the Maple Leafs 2 to 1 last Tuesday to advance to the finals in the Pee Wee division. Ricky Thoms and Mike Bastow scored for the Kings while Wade Reilly replied for the Maple Leafs. The Kings had won the first game 2 to 1. Meanwhile the Wings defeated the Bruins 3 to 2 and 5 to 3 to sweep the series. In the first game of the semi-finals the Wings and Canadians battled to a 4 all tie. In the Midget semi-finals the Carol Cleaners and Saints split their first two games. The Cleaners won the opener 5 to 2 on Monday while the Saints rebounded with a 4 to 3 victory on Wednesday. The deciding game of this series was played on Sunday. The Bantam semi-finals between the Braves and Wabush opened on Sunday while the Mosquitos semi-finals will open on Friday. The following schedule will be in effect: Monday, 4:45, Midget Finals, Tuesday 5 pm, Pee Wee Finals, Wednesday, 4:45 Midget Finals, Thursday, 5 p.m., Bantam Semi-Finals, Friday, 4:45 to 6:45 Mosquito Play Offs, Saturday, 8 to 1, All Divisional Playoffs, Sunday, 3:30 to 6:30 p.m., Midget and Bantam finals.

## "B" LEAGUE PLAYOFFS

With their backs to the walls, the Royals produced a fine team effort last Tuesday as they defeated the Indians 7 to 3. The best of 5 series now sees the Indians leading 2 games to one with the fourth and fifth game, if necessary, played over the past weekend. On Tuesday, All Wells scored 3 goals to lead the Royals to victory. Job Blackwood, Don Hong, Joe Pollet and Bill Todd scored one each for the Royals while Eric Blondell with 2 and Jean Letourneau with the third replied for the Indians. Only four minor penalties were called in the game in which the Royals outshot the Indians 43 to 29. The

finals will begin this week with games scheduled for Tuesday, Friday and Sunday.

## BANTAM PROVINCIAL PLAYOFFS

The Bantam all stars returned from Gander on Monday where they took part in the Bantam "A" Provincial championships. Although gaining only one victory and a tie in their five games the boys were very competitive as they lost 2 games by 2 goals and the other 4 to 0 to Gander. They defeated Conception Bay South 8 to 5 and the Grand Falls 4 to 4, while losing to Corner Brook 4 to 2, Gander 4 to 0 and the championship St. John's team 5 to 3. Tommy Costigan scored 9 goals for Labrador City while John Bullen had 4 goals and 5 assists. Tom Reddick, Randy Snow, Paul Penny and Brendan Kerr all scored one goal each.

While in Gander the boys saw St. John's defeat Gander 4 to 0 in the 6th game of the NAHA Herder Memorial Championships.

## MENS BASKETBALL

In the lone game played last week, the saints defeated Wabush 76 to 42. Three players did most of the scoring for the Saints, with Bill Dwyer sinking 26 points, Terry McGuire 20 and Colin Forward 17. Paul Martin and Fintan March had 12 points each for Wabush while Gerry Barron had 9. The next games will be played, Wednesday the Saints and the Teachers and on Friday, the Braves meet the Saints.

## VOLLEYBALL

An attempt is being made to form a volleyball league again this year. Last years six teams competed for 2 months and this year it is hoped to have at least as many or more. Games will be played in the LCC gym on Tuesday and Thursday nights. So if you are interested in entering a team or being put on a team phone White Kean at 2621 or 5277 before next Wednesday. Last year's league was primarily a fun and recreational one and the skill level improved as it went along. Don't hesitate to sign up if you are a novice as you will find it quite an easy game to play.

## SEE THE NEW **TRAIL-BREAKER**

... it's built for forest riding, mountain climbing ... offers a new dimension in remote area riding

Trail-breaker goes places even pack animals can't negotiate. It climbs 60° grades, fords streams up to 2-feet deep or can be floated in deeper water. Trail-Breaker's front and rear wheel drive allows it to climb boulders, fallen logs or travel through mud, snow or swamps. It can "pack-out" game or "carry-in" a large cargo of supplies or equipment. It's ideal for both the sportsman and industry. See it on display today.

# For your information

Residents of Bumblebee Bight, petitioned in the House of Assembly last week for a road connection to the main road from Robert's Arm. In presenting the petition, William Smallwood (Lib. Green Bay) said the connection would be "relatively short". There is a road which reaches part way to the community, he said, but it is passable only in summer. (Anyone for the Trans-Labrador Highway)?

LONDON: Mini Dresses 40 cents. A campaign to persuade British women to switch to disposable clothing has been launched. "But it is going to be a hard fight", said a spokesman at London's first exhibition of throwaway goods. The first stage, said the spokesman is to destroy the unfavourable image created by the first era of disposables, paper products.

Now, instead of paper, manufacturers are using a mixture of man made fibers, mostly rayon and cellulose, for women's panties, men's briefs, nightdresses and even play suits, all of which are washable. The manufacturers presented a glamorous display of fashion which, at a quick glance, was almost unidentifiable from expensive silks and satins. Outstanding was a night dress prettily printed in a multi-color floral design, with a feminine frilly collar and modern mini styling, it costs under three shillings, less than 40 cents. One exhibitor of beachwear, dresses

and even rainwear came from Montreal. He said it is not easy to convert Canadian and American women to disposables. So, now he is planning production because he thinks the new fashion will catch on quicker with British women.

Edmonton: (Alt.) Alberta employers will have to provide transportation to and from home for any female employee

who must leave or go to work between midnight and 6 a.m. Under regulations passed by the provincial cabinet, this provision comes into effect June 1st.

NEW YORK: To shine silver, save the water in which potatoes have been boiled and soak tarnished silverware in it for an hour. Then wash and dry the silverware in the usual way - and see how it gleams.

## Family aide project suggested for Nfld.

The Minister of Social Services and Rehabilitation announced recently that the Departments Director of Training and Research is undertaking a study to ascertain the number of girls beyond compulsory age who are unemployed and living at home, with no prospects for a future. Mr. Neary said that most of these girls are unsuited to office work, once we find out how many homes in the province could benefit by having a trained "family aide", and the kind of training they would want them to have, we will then try and secure actual lists of names of those who require such help and are able to pay for it. The Minister said that there has been a considerable demand in Newfoundland and Labrador, by the number of requests that are repeatedly received at the Canada Manpower Centre.

## Physics competition open to high schools

High school students in Newfoundland and Labrador will vie for prizes in a physics competition to be held May 9.

The Canadian Association of Physicists, in co-operation with the Provincial Department of Education and the Memorial University of Newfoundland, will hold the eighth annual physics competition for high school students next month. Application forms have been sent to principals of high schools offering physics courses. These forms should be returned to the Department of Physics at Memorial University no later than April 14.

The competition is in the

form of a 2½-hour examination, set somewhat above normal matriculation standards. Prize money totalling \$400.00, provided by the Educational Trust Fund of the C.A.P., will be split among the winning contestants.

Last year about 160 Newfoundland and Labrador students from 39 high schools entered the competition. The first prize went to Peter Budgell of Grand Falls. Second and third prizes went to two St. John's students, Michael Borek and Geoff Hunt.

Similar competitions are being offered in each province by the C.A.P.

## Carol Players in festival

The Carol Players with their production of "Spoon River Anthology" directed by Patricia Carroll Brown has been selected to represent Eastern Canada in the Dominion Drama Festival to be held in Winnipeg the week of May 18th.

This was announced from Ottawa last weekend.

The local group had already earned the right to represent Newfoundland by winning the coveted "Charity" trophy for the best presentation of a full length play, at the Regional Festival held in Gander the week of March 16th to the 20th.

Adjudicators from Newfoundland, Nova Scotia, New Brunswick and Prince Edward Island reviewed the presentations from each province and decided that "Spoon River Anthology" was the best play in the whole Atlantic region. Part of the transportation costs will be covered by a grant from the Dominion Drama Festival.

## Where are the fathers?

The Editor  
The Aurora

Dear Sir:

Yesterday I watched three minor hockey games at our Arena. Two of these were playoff games and quite important to the boys concerned. The officiating and time keeping was done by small boys. The clock can't be used as the boys are too young to handle such a costly machine.

My complaint is, why can't the fathers, grand-fathers, uncles of sports minded men give some of their free time, to go to these games (especially play off time) and do the time keeping, then the clock would be put in use and there would be no costly errors.

One team lost the game because of this yesterday and apparently it has happened before. The small boys do their best but let's face it, they are not capable of making decisions and bidding by them.

When our boys lose game through inefficient timekeeping and decisive refereeing its a poor lookout for the future of minor hockey in Labrador City.

So how about it, all you men of Labrador City, why not give our future hockey players a break, volunteer your help at these games.

Yours truly,  
"Disheartened Fan"

## The Evergreen

BY CHARLES RENDELL

Pride of the Northland! thy forests so wide  
Sweep from the crag to the reach of the tide,  
High on the mountain top lashed by the gale,  
Clinging to hillside and crowding the vale,  
To farthest horizon, boundless you run,  
East, North, and West and toward setting sun.

Nurtured by sun, storm, and rain from thy birth,  
Strong and deep rooted in Old Mother Earth,  
Enchanting and shapely with head lifted high,  
Arms held aloft as you reach for the sky;  
Quite unassuming yet noble, serene,  
Clad in your sober robe of green.

Staid and full dressed 'neath the cold northern sun,  
Waiting for South winds, for dead brooks to run,  
Keeping staunch vigil while flowers of May  
Break through and bedeck in gay colors arrayed  
But the evergreen stands through the endless of days  
In constancy shrouded, in sameness displayed.

Humble, yet splendid through long summer days,  
Mirrored in lakes, overlooking the bays,  
Bowing on uplands as sleepy winds sigh,  
Sleeping yourself in the dells hot and dry,  
No bright clothes for summer like alder and yew,  
Contented you stand in your garb ever new.

Now cool fallish days; with magical hand  
Autumn has come, and redressed the land,  
Alders and maples the yew and birch trees  
Newly adorned dance for joy on the breeze,  
Gaudy branches wave proudly as sprightly winds blow;  
But the test is at hand; sober evergreens know.

Cold winds are blowing; King Winter, alas,  
Roars out of the North with a fierce icy blast,  
Robes scarlet and yellow but now proudly worn,  
Are stripped from their wearers, are tattered and torn;  
While chattering leaves once kissed by the sun,  
Are withered and broken, lifeless and dumb.

Ah! Now in her glory, strong and still green  
Nobly she stand 'mid the wild winter scene,  
Though shaken by tempest, struck by the hail,  
Undaunted she stands in her green coat of mail;  
Alders and maples though pleasing to eye,  
Can't match thy endurance, they've fallen and died.

Even so may I stand through the length of my days,  
Firm rooted and steadfast in all of my ways,  
Let others yet crave for the pomp and the climb,  
May my fullness be peace and my thinking sublime.  
May I firm at the testing, let all that I seek  
Be the simple and lowly the humble and meek.

FOR SALE - 1 48" x 72" coil spring mattress, \$20.00, matching high riser spring \$10.00. Two large end table lamps with washable fibreglas shades, all in good condition, \$18.00. Telephone 944-2132 or call at 708 Field Street, Labrador City.

Mr. and Mrs. Steve Skentos

are proud parents of a baby girl.

Mr. and Mrs. Harold Hollett are the proud parents of a new son.

The Kule Tops of Wabush wish to thank all those who helped make it such a success, and a special thank you to the Royal Canadian Legion, Wabush.

A shower was held at the home of Mrs. Jean Ginn for Kathleen Martin. She was the recipient of many lovely gifts and the evening ended with a cold buffett.

The many friends of Mrs. Lucy Meron are sorry to hear that she has been hospitalized and wish her a speedy recovery.

Birthday greetings to Warren Yuill who celebrated his fifth birthday on April 8.

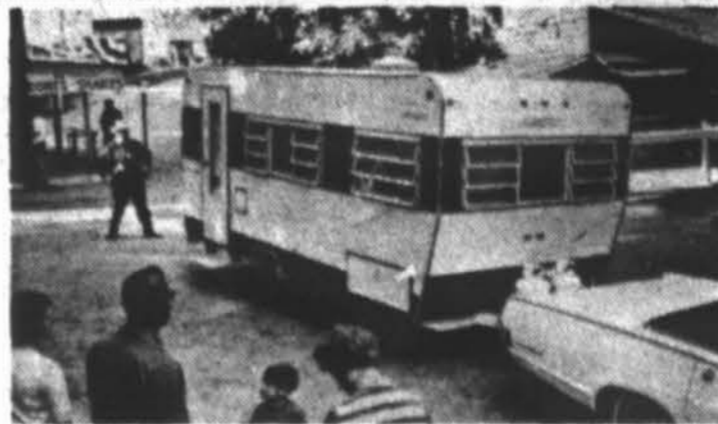

Games night normally held in the basement of the Anglican Church, Wabush, will be held at the Royal Canadian Legion basement, Friday, April 17.
