Mr. A.K. Rudkowski (far left) and some of the Sir W.G. Hotel, Dart League, trophy winners.

**FRENCH ISLANDS ADDED TO SERVICE:** The vessel Petit Forte will operate two round trips weekly during the summer months between the south coast Newfoundland port of Fortune and the French-owned islands of St. Pierre and Miquelon. The Petit Forte is owned by the Department of Transport but is operated by Canadian National.

**THAT'S ENTERPRISE:** Mrs. Elizabeth Pederson, 33, of Copenhagen, Denmark, has earned nearly \$5,000 by producing and selling 330 gallons of best quality milk, her own. She sold it to Danish maternity hospitals. When her first baby was born, Mrs. Pederson found that after feeding it she still had nearly two pints a day left. "After nine months I was bottling the entire supply," she says. "At times it was rather a bore. If I was out somewhere with my husband, I had to retire and draw it off into the plastic bottles I carried with me."

## On the local scene

**ROADS:** According to the announcement by Premier Smallwood at Churchill Falls last week, his version of the Trans-Labrador Highway will be completed by Christmas. The Premier stated it will be possible to drive from Lake Melville to Esker (Mile 286 on the Quebec North Shore & Labrador Railway). **BIG DEAL!** I'm sure there will be a tremendous volume of traffic pouring from Gosse Bay-Happy Valley in snowstorms or 40 below zero weather to reach the rail siding of Esker. In order to help alleviate the feeling of isolation here, how about building a road from Labrador City-Wabush to Esker (about 70 miles); with the connection to Goose this would open up new hunting and fishing areas. By the way with the naming of another Smallwood location we now have Smallwood Mine, Smallwood collegiate and Smallwood reservoir. It reminds one of Russia in the days of Stalin. We wonder if any changes will be made when Dr. Smallwood passes from the political scene.

**NEW POSTAL RATES:** Information Canada of Postal Information didn't do a very good job on letting the general public in this area know of the postal rate increase which went into effect on 1 July. Many of the business firms were not notified of the change until the afternoon of 2 July and general householders even later. Possibly when the next increase goes into effect 1 Jan. '72 we will be informed in advance.

**GENERAL APPEARANCE OF OUR TWIN TOWNS:** Last week we gave a visitor a tour of Labrador City-Wabush and one

of the items our "outsider" remarked of was the fact that while about 80 per cent of the homes seemed well kept and their immediate areas clean, about every fifth house had an unkempt appearance. Now we realize a large number of people are on vacation but surely before departing they can cut their grass and clean-up the grounds. And to those who seem to have little or no pride in their surroundings, a friendly reminder from a neighbour may spur them on to making our communities a more pleasant place in which to reside.

**COMMUNITY NEWS:** Understand both towns were well represented at the Fire Chiefs and Mayors & Municipalities Conventions held in Grand Falls and St. John's.

Labrador City: Within recent days the fire protection line (which was installed last year) has been rendered useless on two occasions by vandals using axes and firing .22 rifle bullets. This protection was laid at a cost of many thousands of dollars, to ensure no duplication of last year's disaster would be possible. The line was installed for the protection of all residents and any local inhabitant seeing this line being tampered with is asked to advise Municipal office or R.C.M.P. Understand there may be a cut back of up to 25 housing units because of the refusal of 6 or 7 Trailer occupants to vacate their premises.

We were informed earlier that trailer residents had been granted an extension to 30 June, to depart this area. However the date has passed and contractors are unable to begin work in that particular part of the old trailer court.

Construction will begin this month for an A. & W. fast food outlet. The building will be constructed near the premises presently occupied by Mr. C. Jubber, opposite the Drake-Avalon corner in Lab. City. It is hoped to have the business in operation by September.

Wabush: Through the co-operation of Wabush Mines and the Local Improvement District

of Wabush together with volunteer labor a new soccer field is being prepared opposite the Sir Wilfred Grenfell Hotel. It is hoped the pitch will be ready within a few days. The local soccer association would like to thank all those who are helping in this project.

Mr. Andrew Crosbie, President of M.C.N. Ltd. was a recent visitor to Wabush. He inspected progress of work being carried

out at Sir W.G. Hotel. Last weekend an interior decorator from Valequette, Montreal arrived at the Hotel to supervise renovations.

Now playing at the Grenfell are Dick Noland and Bob Weaterby. Tuesday 13 July Big Bad John and his Rythm Riders and on the 19th, Vance Rockell (Folk Singer) will be the attraction.

## Editorially Speaking

**BEER:** Over recent weeks we've read a growing number of articles on "the working man's drink" beer (or ale). During the last session of our legislature we were informed that under the present arrangement, whereby government pays for beer purchased from the breweries, which then delivers it for public distribution, the government pays \$2.59 a dozen (bottles) in Newfoundland and \$2.93 in Labrador. Yet through government generosity there is no difference in the N.L.C. price throughout the Province—\$8.22 (case of 24 bottles). One of the first things that really jolts a new comer to the province is the simply atrocious price of beer.

Just a few days later we read the following: "Beer drinkers in north get a break from Toronto." "The Ontario government is coming to the rescue of northern beer drinkers, raising the price of beer in the south so the northerners can drink for less. Beginning immediately the price of beer in northern Ontario will drop to \$4.65 per 24-bottle case, 11 cents lower than the present price. But in more populous southern Ontario, the price will also be \$4.65 a case, an increase of 15 cents." How could the poor people of Toronto take it? Imagine, with the increase they pay .54 cents more than we do, but in return are purchasing 24 beers while we buy 12!

Oh yes, one of the figures given in the Nfld. Legislature was beer costs \$1.87 a dozen in Manitoba (I believe this figure does not include Federal Tax while Nfld.'s does) against the Newfoundland average of about \$2.64. Only recently this Prairie Province reduced its price to \$2.90 (dozen) \$5.80 (two dozen), a drop of 10 cents per dozen. It's a mighty large difference when one government buys beer for \$3.74 before Federal Tax (?) and retails it at \$5.80 and this Province buying at \$5.28 (after Federal Tax charges) and charging \$8.22. As step one in attempting to bring prices in this Province to some sort of reasonable level Aurora would suggest the 7 per cent sales tax be removed from purchases of beer or ale.

**POINT TWO:** During the last session of our House of Assembly, legislation was passed to lower the drinking age to 19. It seems several church groups objected to this and the law has not been proclaimed. During a recent visit to Toronto, Nfld.'s Health Minister was asked by Financial Post, why the law had not been enacted. Here is an excerpt from a Post article:

"Newfoundland's Health Minister Ed. Roberts has been doing some curiously selective kite-flying of his own in the area of lowering the legal drinking age. The bill Roberts piloted through the house in St. John's extends all such rights (including marriage without parental consent) to people 19 and older. But the section on drinking, unlike the other sections, hasn't yet been proclaimed law.

Explaining why, Roberts said that on the drinking issue, the people have a right to be heard. Nobody apparently bothered to ask why "the people" need to be heard about say, a person who is 20 years and 11½ months old should be legally allowed to sip a cold beer on a hot day, whereas the people DON'T need to be heard on the question whether, say, a 19-year-old with no business or financial experience is ready for all the risks of the marketplace, including perhaps signing of a conditional sales contract phrased in language he doesn't understand, requiring him to pay money he doesn't have for a car he doesn't need."

**BRAVO, Financial Post.** The Minister's line of thinking is utter hypocrisy! The Act has been passed by the Legislature. Why not proclaim it immediately?

### MCP REGISTRATION METHOD CHANGES

The Newfoundland Medical Care Commission has announced a change in the registration procedure for newborns.

Effective July 1, 1971 the registration of newborns will be the responsibility of parents or guardians. Prior to this change registration was the responsibility of hospitals.

A spokesman for the Commission said the change is considered necessary to assist in streamlining operating procedures.

All hospitals in Newfoundland and Labrador will assist in the new program. Hospitals will have a supply of Newborn Registration Kits to present to mothers when being discharged from hospital. The mother will then complete the form and mail it to MCP in the return postage paid envelopes.

It will be the parents' or guardians' responsibility to mail the form as quickly as possible to ensure that an MCP card is mailed in the shortest possible time, and that claims on behalf of newborns can be paid promptly.

## Here and There

**PROPOSE LIMITS:** The 12-man special Commons committee on election expenses, last month proposed limits on election spending by both political parties and individual candidates and reimbursement in part by the Government of candidates who fare well on polling day. The committee called for an expense ceiling of 30 cents a qualified voter for political parties in each riding that they field a candidate.

**YOUTH COULDN'T READ ENGLISH AND DROWNED:** A 17-year-old Quebec youth was drowned last month, 30 feet from a No Swimming sign, apparently because he could not understand English. Leo Charmand, of Victoriaville, Que., dived into the Burlington, Ont. canal after finishing work at a beach strip amusement park and tried to swim across. Thirty feet from his goal he weakened. People standing on the pier shouted to him (in English) to roll over on his back and float until help arrived, but Charmand paid no attention. A man dived into the water, but before he could reach the drowning youth Charmand sank.

### Personal Division

The Canadian Medical Association agreed at its recent annual meeting that abortion should be a matter for decision by a woman and her doctor. The CMA general council favored removing from the Criminal Code the provision that before an abortion can be performed it must be approved by a hospital committee of three doctors.

**DON APRON, OR ELSE:** Women trade unionists meeting at Bad Aibling, Bavaria, Germany, have demanded a new law to compel husbands to share housework with their wives. If they don't, said the delegation, it should be regarded as ground for divorce.

**FISH FARMING STUDY ORDERED:** The Winnipeg firm of Hidebrand & Young has been retained by the Newfoundland government to look into the feasibility of establishing fish farming in the Province. Provincial

Resources Minister W.R. Callahan says \$100,000 has been set aside for the study. The firm will look into what species can be introduced without harming native stocks. The study will also report on the mineral and salinity content of fresh water, water temperature and food content in the water necessary for life support of fish. Callahan says it would be uneconomic to support the industry by means of artificial feeding of the fish. He hopes the industry would have good potential to attract private

investors.

**OUCH!** Mick Micheyl, former feminine star of the Casino de Paris, has been awarded the Vermillion Medal of Arts, Sciences and Letters. "I'm very nervous at these ceremonies," she confessed in Paris recently. "One day a major who doesn't see too well pinned the medal to my left breast? and I didn't recover for a month." She believes some other form of decoration should be created for women.

### LIBERALS AND LABOUR

Editor,  
Aurora,  
Wabush, Labrador, Nfld.

Dear Sir:

Would you please print the following letter:

Thank you for printing my letter a few weeks ago so accurately. I am glad that some signs of life are beginning to show in local politics and I propose to try and make it livelier.

A few days ago there was one New Democratic Party government in Canada. Today, there is another New Democratic Party government. Saskatchewan overwhelmingly did to its Liberal government what we in Newfoundland should and will do to our Liberal government.

A major point that I wish to make clear, is that this District, Labrador West, has a population of working, union people larger than anywhere else in the province. Besides the members of the nine union Locals, there are many who were formerly union members and as many more who wish they were.

The record of the Newfoundland Liberal government's attitude to labour, organized, unorganized, and disorganized, and its reactionary labour legislation is well known throughout Canada.

The attitude, the sycophantic attitude of the Liberal party and government to big business and big business management is also well known. What this present Liberal government has done for this area, excluding the big Companies is absolutely nothing. What the Liberal government has done to the wage earners of this area is something else. Now the Liberal party has the usual Smallwoodian gall to present to the citizens of this area and I include Churchill Falls, most of whom are members of Labour Unions, a professional "Company Man" to represent their interests in the government. We are not that stupid.

In 1958 Smallwood commanded the lawyers, doctors, clergymen, Boards of Trade, and the Provincial Progressive Conservative Party opposition to stand up and be counted in support of his repressive stand against organized labour during the Loggers Strike. Mr. Malcolm Hollet the P.C. leader of the opposition in the House,

unreservedly committed the P.C. party's support of that infamous legislation and that same P.C. attitude stands today, except when they find it expedient to do otherwise, like just before an election, or in a vain attempt to embarrass the government, vain because you can't embarrass a person, a person or a government who has no sense of shame.

I am still not quite clear on what the New Labrador Party stands for, other than to get Mr. Burgess elected, preferably to the Federal House of Parliament. If, and it's a slim, dim if, they win three seats in Labrador, what then? If, they get the "balance of power" and that is an even slimmer, dimmer if, what do they propose to do with it?

The Daily News of Wednesday, June 11, 1971 says: "Canadian Javelin Labrador timber rights make it the largest holder of timber tracts in the world." Between them, John C. Doyle, John Shaheen, and Brinco own and control for all practical purposes the whole of Labrador.

I hear that Mr. Burgess said recently that actually he is a Liberal but not a Smallwood Liberal. To me a Liberal is a Liberal, is a Liberal, is a Liberal, be he Smallwood liberal, reformed liberal or New Labrador Party liberal.

One of the plans of the New Democratic party of the Province of Newfoundland and Labrador, is that the N.D.P. government will develop the economy of the province in a rational, humane, and scientific manner, to ensure that economic progress is made in the best interests of the people of the province, not for narrow business interests.

Another is that programs will be developed to secure maximum possible benefit for the people of the province, based on fisheries, forest products, mining, electric power, and tourism, benefit for the people, not solely for big business, local or foreign.

The last convention of the Federation of Labour gave full support to the aims and objects of the New Democratic Party of Newfoundland and Labrador.

Let us then as the population of labour support the friends of labour, who are only and solely the New Democratic Party in this area and throughout the Province.

UP THE N.D.P.

Yours truly,  
William Smeaton

**Daily Light**

By D. R. PARSONS

Have mercy upon me, O God, according to thy loving kindness: according unto the multitude of thy tender mercies blot out my transgressions.

Psalm 51:1.

This Psalm should strike a tender chord in the heart of every man, for who can say that he has not sinned? And who, knowing God, has not cried for mercy? This is the utterance of a full heart which was crushed under a burden of sin. The Psalmist felt the weight of the sin, he could not hide it or belittle it. There was no possibility of trying to excuse it or apologize for it. He knew that the law was just, and that the law condemned him. His cry came because of the knowledge of guilt. The only hope in such a case is mercy; the mercy of God.

There is a graduated list of three words marking the mercy of God; note first that "mercy" denotes that feeling we have which expresses itself by moaning over one we love and pity; the second, "steadfast love" (loving-kindness) is of a higher degree of goodness and suggests a bountiful flowing or gushing of compassion; the third, "tender mercies," of even greater degree, denotes what the Greeks called "most tender pity," that which moved the innermost passions, the moving of "the Heart". This would signify the highest type of compassion and mercy man is able to understand and God is able to give.

It has been alleged that a charge against a certain official in "high places" was about to be erased from a police record when discovered by an investigating committee. Should this have happened, there would have been no official record of the crime; it would have been erased, blotted out. The Psalmist asks for an erasing of his indictment from the official record. He knows that he is guilty, he recognizes the justice of the law, he knows that he should be condemned, but he calls on that great Mercy to wipe out all record of this transaction. That is, in fact, what God claims to have done: "I have blotted out, as a thick cloud, thy transgressions, and, as a cloud thy sins: return unto me; for I have redeemed thee." (Isaiah 44: 22.)

Today would be a good time to stand before your God and consider the magnificent wonder of it all.

**CO-OP OPENING:** On Friday past we were officially informed that the Carol-Wabush Co-Op store would be open for business on Wednesday 14 July 1971.

**POLITICS:** Approximately 125 people turned out for the annual meeting and election of officers of the P.C. Association of Labrador West held at the O'Brien Hall Friday 2 July 1971. Guest speaking was Mr. John C. Crosbie, M.H.A. Mr. Ambrose Peddle, M.P. conducted the election of officers. Mr. Peter Walsh, P.C. candidate in the upcoming provincial election also spoke. More pictures and details in our next edition.

# The Lighter Side

**THE HELPFUL COW:** Farmer Brown had been on a tear in the big city and was suffering from a terrific hangover when he stumbled out at five in the morning to milk the cow.

"You look terrible," said the cow bluntly. "Those circles under your eyes reach down to your knees."

"I know," said the farmer sadly. "And milking you is only the beginning of my troubles. I'll be slaving on this farm till seven this evening."

"Well" volunteered the cow, "I'll help all I can. You just hold tight and I'll jump up and down."

**SWEET:** A shy young man called to see a girl for the first time, and she kissed him suddenly for bringing a gift box of candy. He grabbed his hat and started for the door.

"Please don't go," she said! "I didn't mean to frighten you!"  
"Frighten me!" he exclaimed I'm going out to buy more candy!"

**NOT SO YOUNG:** Emperor Franz Josef 1, of Austria, a notorious old flirt, once admired a bosomy opera singer who wore a strapless evening gown. "What keeps your dress up, my dear?" he smirked. The young beauty replied: "Only your age, your Majesty!"

**NO JUNK:** Two boys were discussing the inevitable subject—girls. One was rather enthusiastic about the subject but the other merely smirked and said, "Why do you make such a fuss over girls? Don't you know a girl is only a rag, some bone, and a hank of hair?"  
"Si," grinned his friend, "shake hands with a happy junkdealer!"

**THE EXPERT:** A hydrochondriac told his doctor, in great alarm, that he had a fatal liver disease. "Nonsense!" protested the doctor. "You wouldn't know whether you had that or not. With that disease there's no discomfort of any kind!"  
"I know," gasped the patient, "My symptoms exactly."

**NOT TOO FAMILIAR:** Approaching the shopping center advisor, the shy young man said he wanted to buy a gift for his sweetheart. "How long have you known her?" he was asked.

He blushed and cleared his throat.  
"Oh, I see," smiled the advisor.

"How about a pair of hose?"  
He nodded in agreement.

"What length please?" he was asked.  
He blushed again, hesitated and finally blurted, "Well—I really don't know her that well yet!"

**CAUGHT IN THE MIDDLE:** The author D'Alembert had Mme. de Stael, the most brilliant woman of her time, for his dinner partner; on his left sat glamorous Mme. Recamier. "How fortunate," he exclaimed rapturously, "to sit between Wit and Beauty!" "Yes," said Mme de Stael, "and without possessing either!"

**ANOTHER BACHELOR:** A minister advertised for a combination handyman and houseboy. The next morning a clean-cut young man appeared at the door.

"Good morning, Reverend, I'm here to..."  
"Yes, yes, I know," interrupted the minister, "and can you have the fire started and breakfast ready by seven each morning?"

"Well, yes but..."  
"Can you polish all the silver, wash the dishes and keep the house and grounds neat and tidy?"

"Just a minute, now Reverend," protested the young man. "I came here to see about getting married, but if it's going to be anything like that, you can count me out right now!"

**THE SNOBS:** The folks from Manitoba worked hard all their lives, and in due time they accumulated a nice sized nest egg. They sold the farm and decided to have a gorgeous fling before calling it a day. Travel was definitely included, and nothing but the best in accommodations for them. Accordingly they booked a stateroom on the Queen Elizabeth II and set sail for London.

Aboard ship they were thrown together with a very snobbish titled couple, who were assigned to sit at their table. And try as they would the Manitoba couple could not break down the reserve of the snobs. Finally the Manitoba man couldn't take any more.

"Look here," he said forcefully, "just what is it you have got against us?"

"Please!" shot back the Grand Dame in a huff, "haven't you ever heard of breeding? WE INSIST on breeding!"

The Manitoba lady stepped in. "Back home in Manitoba we think breeding is a lot of fun too—but we don't get so stuck up about it!"

**VERY AGREEABLE:** A Hollywood starlet, was held up by a gunman while taking her nightly stroll down Sunset Boulevard. "But I don't have any money," she protested as he leveled the automatic at her.

"Don't hand me that stuff sister," he sneered. "Lemme see what's in your purse!"

He snatched the purse from her and searched through its contents, but found nothing. Unconvinced, he searched both her coat and blouse pockets. Then he ran his hand up her stocking to see if she was concealing any money in her garter.

"I guess you were telling the truth," he finally admitted.  
"Keep searching," she cried, "I'll make you out a cheque."

## THE ROYAL CANADIAN LEGION

# University year 1970-71 at Labrador City Collegiate

September, 1970 saw the beginning of a new senior matriculations program at Labrador City Collegiate. This program, known as "University Year", is being sponsored by the Labrador City Collegiate Private School Board under special arrangements with Memorial University of Newfoundland. To be eligible for acceptance into this program a student must have a junior matriculation certificate (grade XI) from the province of Newfoundland or its equivalent. Adults who do not possess such a certificate may apply for admission as a "mature" student.

The year began with thirty-seven students—thirty-four full-time students including four adults and three part-time students. During the first term two more students registered for one subject each, two students registered for full-time studies, one full-time student dropped two courses and four full-time students out of the program, as did three of the partial students.

The year ended with thirty-one full-time students and three partial students for a total of thirty-four.

Eight subjects were taught on the "University Year" program for 1970-71. These were: English 100 A & B, French 150 & A & B, Geography 101 A & B, History 104, Mathematics 1010 & 1011, Chemistry 100 & 1001, Physics 105 A & B, and Biology 1000 & 1010. The instructors for these courses were in all cases, members of the Labrador City Collegiate staff. The textbooks and the course outline used for each subject were the same as those used on campus at Memorial University in their equivalent courses.

Examinations for the subjects taught on the program were, except for History 104, identical to those written by students taking the same subjects at Memorial University, i.e. the examinations were set by the university. The examination booklets were returned to the

university for marking, and the final grade given a student was determined partially by a term evaluation from the instructor and partially by the formal examinations.

The results of the University Year students arrived back from Memorial University in May. They proved to be more than satisfying to those instructors connected with the program, especially when it is realized that some of the students, although they had matriculated, really did not have the grade eleven average required for admission into university. All three partial students who wrote final exams were successful. Of the thirty-one full-time students on the program in April, twelve obtained five credits (a full year's work) and seven met the passing requirements in four of their subjects. These results indicate that the program is a benefit to those students of our town who are seriously interested in furthering their education.

Once a student completes the year of work at Labrador City Collegiate he may proceed to the second year at Memorial University or obtain a letter of standing from Memorial certifying recognition of the year's work at Labrador City. Although some students will be proceeding to Memorial University in September, a number have been accepted as senior matriculants at other universities including McGill, Waterloo Lutheran, Carleton, Mount Allison, and University of Western Ontario.

The past year has been an exciting and challenging one for both students and instructors. Plans are now being made for the coming academic year. Any person in the community who is interested in the program may obtain additional information by calling Mrs. Robert Martin at Labrador City Collegiate, Telephone No. 944-2441.

**SOFTBALL SUMMER FAIR:** Players, fans and the general public are reminded that Sunday next 11 July the Labrador City Senior Softball Association are holding a "Fair" to raise funds to assist teams participating in Provincial competition. The event will take place on the old ball diamonds and starting time is early afternoon. So come out and play your favorite game of chance and support this worthwhile endeavour. Should weather conditions be unfavorable, the "Fair" will take place in the L.C. Arena.

## MENS SENIOR SOFTBALL

On Thursday June 24 in an 'A' league game the saints played Wabush. The final score was Saints 2, Wabush 4. Winning pitcher for Wabush went to Jerry Corchrane and the loss went to Duke of the Saints.

On Sunday June 27 the 'A' league continued with the Carol Cleaners facing the Wabush team. Again Wabush came out on top with a close 5 to 4 win. The loss went to Lewis of the Cleaners with Corchrane took the win.

On Monday night June 28 the "B" league was officially opened by Recreational Representative with Kean **THROWING IN THE FIRST BALL.** In the contest that followed the Ashuanipi Indians walked away with their

first win by defeating the Capeteria team 19 to 5. Traverse took the win while the loss went to McGowan.

Tuesday June 29 saw the "A" league lock in action with the Braves facing the Saints. The Saints gave the Braves newcomer to the pitching mound little chance as they won by a score of 7 to 3. John Duke took the win while Braves Ed. Hong was tagged with the loss.

Wednesday June 30 had the 'B' league in action again. This time the Indians faced a new entry of the Bechtel Builders. This game was a real thriller as the Bechtel Boys fought back but failed to catch the Indians in an 8 to 6 battle. The went to Traverse of the Indians while John Hudson was tagged for the loss.

On Thursday July 1 the "A" league action saw the Saint Marie Saints down the Carol Cleaners team to a sound thumping of 17 to 4 Jim Barron was the losing pitcher while John Duke was credited with the win.

The upcoming schedule: note starting times for double-headers:

Wednesday, July 7, 1971, "B" league game 6:00 p.m., Capeteria V—S Indians.

Thursday, July 8, 1971, "A" league game 6:30 p.m., Braves V—S Carol Cleaners.

Thursday, July 8, 1971 "A" Practice, After the game all stars.

Sunday July 11, 1971, all games cancelled A and B league because of the "Softball Summer Fair."

Monday, July 1, 1971 "B" league game 6:;; p.m. Juniors V—S Capeteria.

Monday July 12, 1971 "B" league game 8p.m. Indians V—S Bechtel.

Tuesday July 13, 1971, "A" league game 6:30 Saints V—S Braves.

Tuesday, July 13, "A" league Practice following the game ALL STARS

Wednesday July 14, 1971, "B" league game 6:00 Bechtel V—S Capeteria.

Thursday July 15, 1971, "Aaa league game 6:30 Wabush V—S Carol Cleaners.

Thursday July 18, "A" league practice folling the game ALL STARS

**LADIES:** Several interesting games have been played recently and some new talent has surgaced. Bowringg's did a complete turnabout, dropping a one-sided decision and coming back with a victory. Lionettes may be the team to challenge Handy Capt (last year's champs). Presidnt P.K. advised Aurora that plans are just about complete for Provincial Finals being held here the middle of July. Nine teams will be visiting and in this regard accommodations are still required. Local residents having space available at this time, are asked to call 944-5007.

**CURLING:** Bill Piercy of St. John's one of the

province's betsknown curling figures, was re-elected to a second term as President of Nfld. Curling Association at the assoc's annual meeting held recently in Gander.

Delegates from 11 of the \$4 clubs under the jurisdiction of N.C.A. attended and re-elected the majority of officers, including, first vice-president Paul White of Corner Brook, second vice-president Farrell Gaudent of Gander and directors Karl Hiscock of Labrador City and Ken Ellis of St. John's. The new secretary is Rex LeDrew and Treasurer Tom Warren both of St. John's.

St. John's will be hosting the 1972 Brier. A precedent was set at the meeting when two of the clubs-Bell Island and Bally Hahy had women delegates in attendance.

Swimming. L.C. Recreation Commission advises a pool is available in the Areen. Only children signed with this summer's recreation program will be permitted to avail of this facility. The Commission further requests various sporting groups to refrain from using the new ball diamond for a least another 7 days to enable employees to complete work.

## TAMARACK GOLF NEWS

The first Junior Tournament was held June 30th. 1st Low Gross went to John Bastow Jr. who shot a 78 2nd Low Gross went to Lorne Brown 87. Low Net Stuart Martin 62.

The ladies had a "Bingle Bangle Bongle" tournament last Wed. The winners were M. Morin 1st with most points, 2nd M. Roberts 3rd J. Anderson & H. Beauregard. Low Gross went to A. Chick.

Trains will leave the Labrador City Terminal on Monday & Wednesday at 11:00 a.m. to arrive Seven Islands 6:00 p.m. On Saturday the train will depart Labrador City 10:30 a.m. to arrive Seven Islands 5:30 p.m. On return: Trains will depart Seven Islands Sunday, Tuesday, and Friday at 8:00 a.m. to arrive Labrador City at approximately 5:00 p.m. (Local TIMES).

A shuttle auto-car service is also in effect and employees are advised to contact I.O.C.C. Personnel Office at least 48 hours before departure to submit required documents. Please phone 944-8483 if additional information is required. Patrons are further advised that on Saturday and Sunday service, passengers only will be taken.

Iron Ore of Canada at Seven Islands have been notified by ferry operators (from North and South Shore of St. Lawrence) that additional trips will be made, if a minimum of 25 vehicles require transportation. Within the past few days it has been reported several families arriving in Seven Islands for overnight stays, have (because of large construction projects presently underway in the area) been unable to find accommodations. Residents of Labrador City-Wabush are thereby advised to make prior reservations to avoid discomfort.

**WABUSH REGIONAL LIBRARY: SUMMER HOURS:** The Wabush Regional Library Board wishes to announce its Summer Hours. Commencing 5 July until September the Library will be open on Mondays & Fridays from 7:00 P.M. to 9:00 P.M.

**ANNOUNCEMENT:** The Carol - Wabush C - Operative Society wish to announce their official opening. The Date: Wednesday 14 July 1971.

## THE LEGION AGAIN

Dear Friends:

Again a meeting of the ways and means committee was held and the following items were discussed at the normal high

**FOOD WITHOUT FRILLS:** The power of advertising has shown up recently in an advertisement in the Toronto Globe and Mail for a nude chef. The ad, placed by the Mynah Bird, a Toronto night spot, appeared four times, and attracted replies from Vancouver to Halifax. Result: "I've hired three," said Colin Kerr, owner of the Mynah Bird. "I did that hoping that one will turn up." If they all turn up, "I've explained that I'll put them on a part-time basis." Interviewing for the job was conducted by Mr. Kerr's mother-in-law who, according to the owner, has the usual

level of intelligence that distinguishes this group.

Comrade Sick and Visiting reported that none of our comrades have been reported ill at least none have taken up residence at the Capt. Jackman Comrade house and bar reports that all is going well with the bar, little or no trouble. He further reports that he saw Comrade Treasurer smile (a mystery). He further claims that the only good idea that this comrade ever had was buying a cow. It seems that the boys are on a health kick and are drinking a lot of milk lately. At this point Comrade Manager interjected claimed that looking after the comrades and listening to their fabrications was enough for him and that he did not intend to take on the care and maintenance of a cow. After a brief discussion the matter of the cow was held in obyance.

Comrade Building Committee reported that the work on the Legioner's Room is Progressing and should be completed by Convention time. He and Comrade President got into a huddle and discussed the "Girl Guide Mother and Daughter Supper", that they attended. How those two managed to attend that we sure don't know, they sure don't look like mothers to me.

Comradess Ladies Auxiliary reported before she left to make the biscuits for our tea informed us that the Ladies intend to furnish our Legioner's Room (mystery solved). God bless our Ladies.

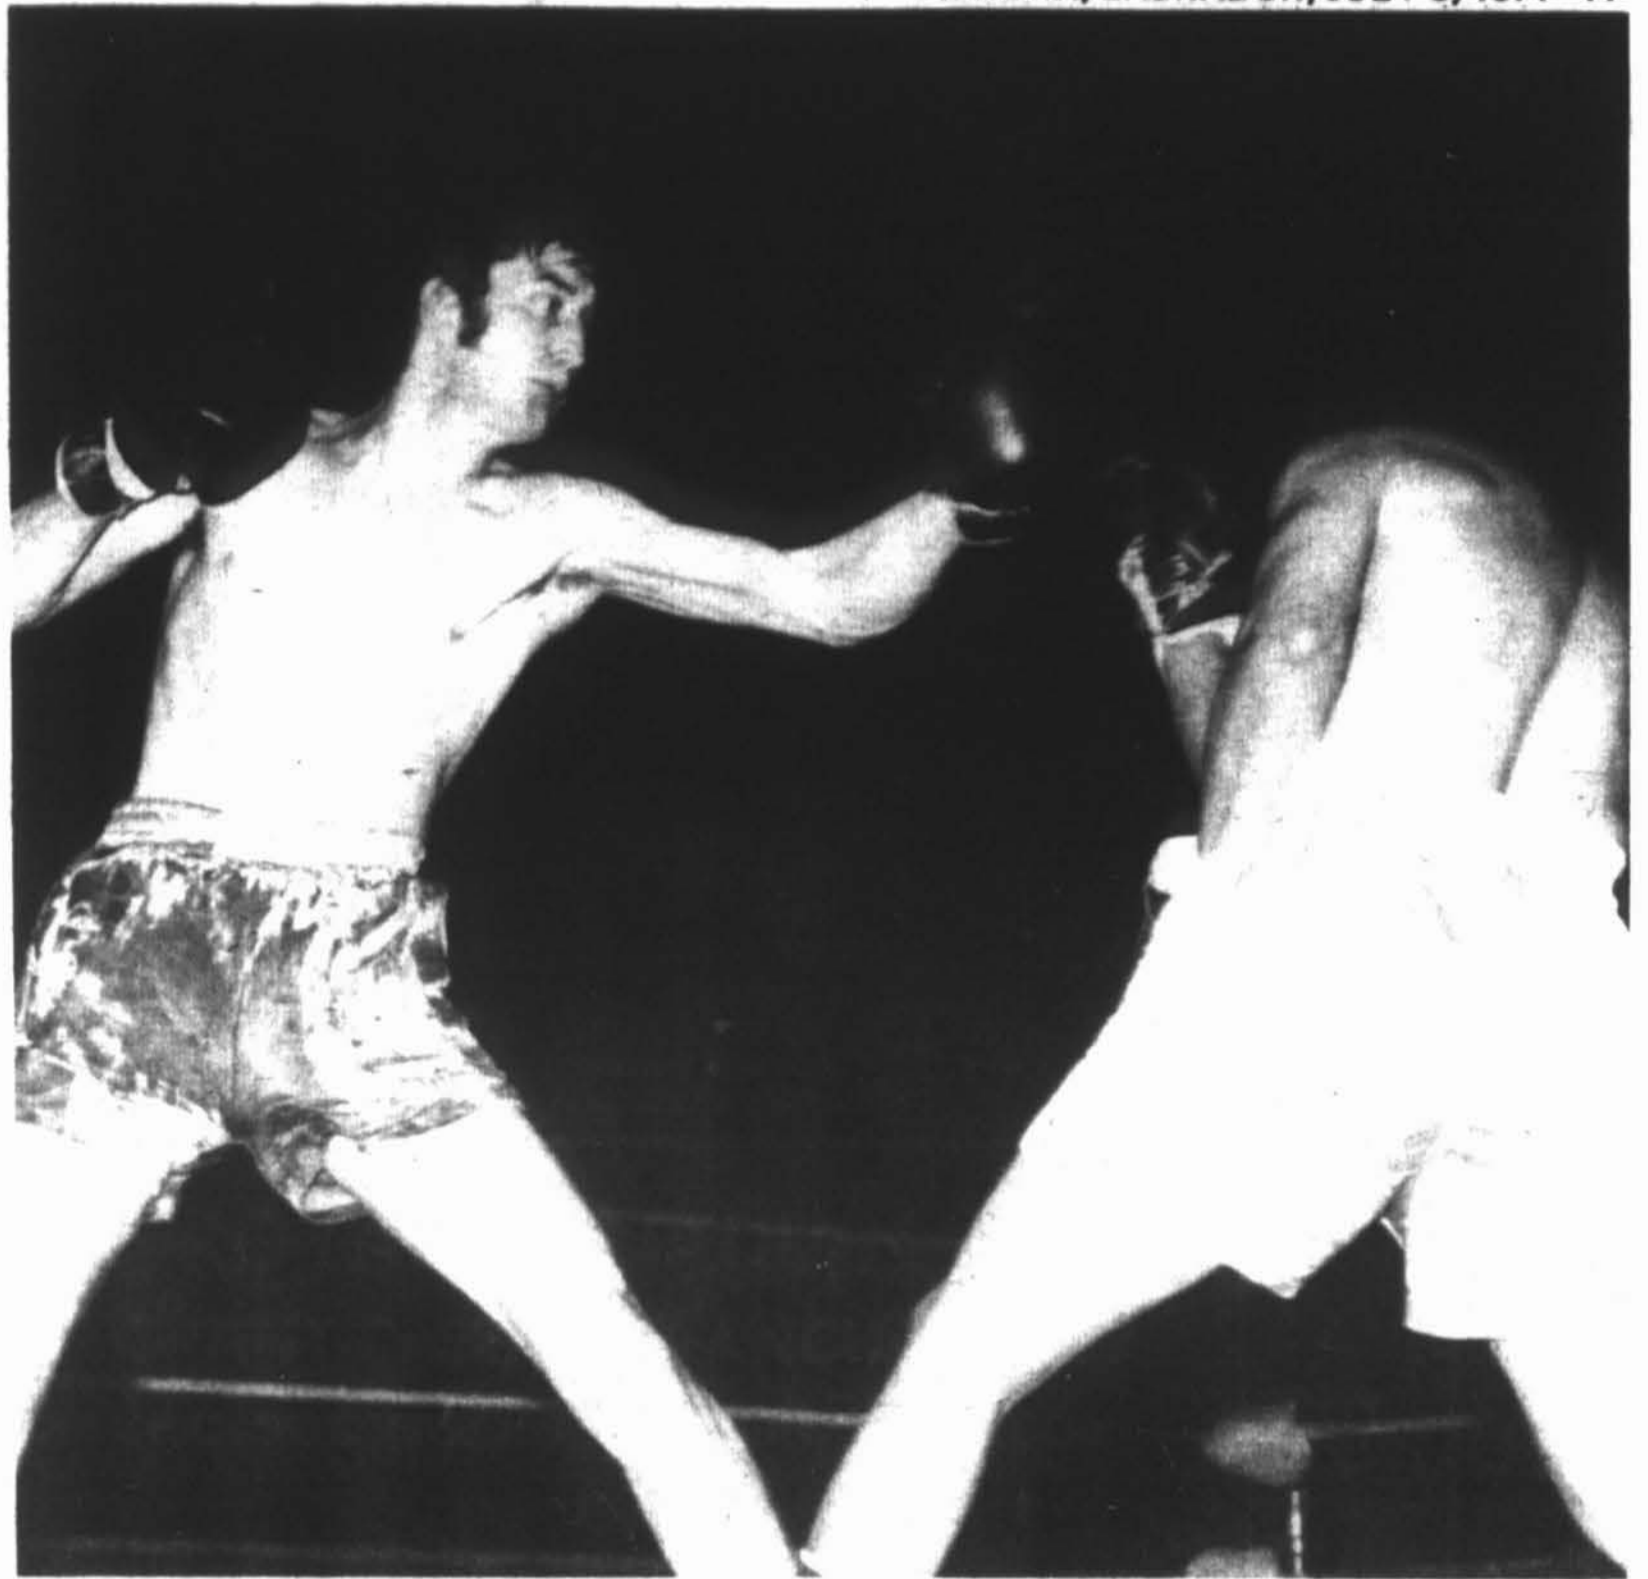

Comrade Poppy Fund reported that the "Forget me nots" were on sale and he informed us that this would be the last year that they are on sale. These pretty little flowers are to remind us of the sacrifice that the boys from Newfoundland made in World War I when the Newfoundland Regiment was wiped out almost to the man at the battle of Beaumont Hammel. A sad thing to see the last of this remembrance emblem.

At this point Comrade Membership tearfully informed us that the tea was ready. Membership is not improving as well as it might.

Remember the next time you see a man with a Legion Pin in his lapel remember that he holds you in great regard.

Truly Yours  
Pat Hogan  
P.R.O. Branch No. 47

qualifications of being dieitian and a chef. The address "a minimum" of 150 replies a day, and between 20 and 25 applicants were interviewed. Most of them were turned down "because they were lousy cooks." Most of them were asked to prepare caviar. "Then they had to take their clothes off." Explained Mr. Kerr. "Everything is an idea. Sex is an idea. This gives people a good laugh." And the three chefs? One male, with 10 years experience, and two females with experience as part-time chefs, all of whom will be on public display as they work.

Hayward & Perze; just before Terry decked the visitor.

# From The National Press

**CANADA SHOULD HELP PAY THE QUEEN'S ALLOWANCE:** (From the Hamilton Spectator): Recently the Queen asked Britain's Parliament for more money to meet an estimated \$2 million annual budget (her present allowance is slightly more than \$1 million). If all the relevant facts were made public, however, they would undoubtedly show that the Monarchy costs far more than \$2 million, that the Queen herself spends millions of her personal fortune each year helping pay for its operation. Considering the fact that Her Majesty is also the Queen of wealthy countries such as Canada and Australia, it seems unfair to expect the hard-pressed British taxpayers and the Royal Family to shoulder the entire burden of such an enormously expensive, vitally necessary institution. Canada, certainly, should be more than happy to pay a sizeable share of the annual costs, if only because most Canadians are well aware that every time Her Majesty visits us, the communities of her itinerary enjoy the luxury of a major temporary economic boom.

We feel sure that the majority of Canadians would be quite willing to pay a minimum of \$1 million yearly toward the expenses of the Royal Family. Even if we could conveniently disregard the validity of the ties-that-bind argument, and if we also were able to shove aside such equally strong reasons as duty and fair play, it would be impossible to ignore the fact that from a purely practical, dollar-and-cents standpoint, it would be money well spent.

(ED. NOTE. Lets take a plebiscite among Canada's 500,000 unemployed.)

**MAJOR MISCONDUCT:** (Toronto Globe & Mail). Public figures in Newfoundland have been known to protest bitterly that Canadians in other parts of Canada look at their province

through the wrong end of the telescope. Recently, however, it has been difficult to surpass the efforts of Newfoundland's legislators to diminish their own stature. More and more, the proceedings took on the color of one of the nastier hockey games: physical violence, arguing with the referee, playing to the gallery, imposition of penalties and the mounting of power plays while the opposing team is at low strength.

The descent into complete farce steepened last month as Conservative William Marshall, talking about slum landlords, mentioned the name of Mrs. Smallwood, wife of Premier Joseph Smallwood. The Premier's son, William, Liberal member for Green Bay, punched Mr. Marshall in the face. As the affair unfolded, there were several expulsions from the

House, and some of these gave rise to protests of unfairness on the part of the speaker.

Premier Smallwood plunged willingly into the mess by asking, in the course of a radio interview, "How does a youngman sit there and listen to his mother being slandered?" This brought a charge of breach of privilege, more argument, and finally a boycott which left the governing Liberals alone in the House. One might have supposed that nothing could really make the situation worse than it was—but this is to underestimate Joe's Liberals. This, they decided, was the moment for brisk business—so they shoved through \$74-million worth of it in less than 25 minutes, unimpeded by Opposition arguments or the slightest concern that the machinery of democratic government was badly out of order.

Perhaps this rampage of scoring furiously into an empty net satisfied Government

members, but we would hate to underestimate them. (ED. NOTE. AMEN.)

**CALL FOR INVESTIGATION OF TEACHING:** (Toronto Star). Test finds more than half of Grade 9 class unable to express per cent as decimal.

A mathematics test at Toronto's Parkdale Collegiate Institute revealed that more than half the Grade 9 class did not know how to express 65 per cent as a decimal. Trustee Graham Scott, a former mathematics teacher, disclosed the test scores to a fundamental skills committee recently, and called for a trustee investigation of math teaching.

"I hope it's not typical," he said of the Parkdale scores. "I suspect there's a deficiency in mathematical skills throughout our total system." Mr. Scott said the test was given in May; he did not mention the name of the teacher to the committee.

The test also revealed that only

21 per cent of the class knew the number of feet in a mile, that only 17 per cent knew the number of pints in a gallon, and that only 8 per cent could write 2/4 as a decimal. Only 40 per cent of the students could find 15 per cent of 20, and 18 per cent could figure the circumference of a circle. The best they did was in answering the problem: 1/2 plus one-third. Almost 80 per cent of the class got it right.

M.C. England, head of physics at Parkdale, said he prepared the test because his Grade 9 science students were having problems, and he suspected their trouble lay in the area of arithmetic. He would not pass judgement on the returns, except to say he found them "a little disturbing."

The test was given to the 275 students in Grade 9 at Parkdale. All students at Parkdale are in the five-year university-bound academic course; thus they represent the highest academic achievers in the system.

Mr. W.W. Bates, Toronto's director of mathematics, said the scores had been discussed at the meeting of Toronto math heads, and some considered them "drastic and sad" while others didn't. He said the scores reflect a shift in math teaching from merely doing problems to understanding the process. This is the "new math" approach.

"Should students in Grade 9 be able to express 65 per cent as a decimal?" Mr. Scott asked.

"Yes," said Mr. Bates. "Only 45 per cent could do it," Mr. Scott replied.

Mr. Bates said he thought 99 per cent would be able to do that problem if they took a couple of minutes to think about it. He emphasized the need for a balance between problem solving and understanding.

Mr. Scott declared afterwards that Grade 7 students ought to be able to handle the problems on that test. At this urging, the committee decided to stage visits to mathematics classes throughout the city to see for themselves how math is being taught. (ED. NOTE. "They represent the highest academic achievers in the system. "—"OH! CANADA.)

## The Labor Front

**WAGES & SALARIES:** According to the latest D.B.S. figures the average industrial wage in Canada was \$130.82. In the Atlantic area only Campbellton-Dalhousie in New Brunswick topped that figure at \$141.41. Corner Brook had the highest in Newfoundland \$128.61, which was second only to the N.B. center in Atlantic Canada. (Statistics are compiled only on areas with a population of more than 25,000).

Highest wages and salaries across the nation were recorded in (2) nearly Quebec communities. Baie Comeau led the list with \$180.78 closely followed by Sept Iles at \$177.61.

Oshawa topped the Ontario compilation \$171.59; followed by the perennial national leader, Sarnia, showing \$164.91. The only community west of Quebec under the \$100.00 mark was Pembroke, Ont. at \$99.08. The lowest figure recorded was \$87.41 at Charlottetown, P.E.I.

Average wage increase over the preceding 12 months was 6.3 per cent. It may be of interest to note that one of the few areas showing a decrease was Sudbury, Ont. where wages and salaries fell 1.5 percent to \$153.66 a week.

**UNEMPLOYMENT:** The year 1970 brought growing unemployment, in several industrial countries as well as most developing nations, according to the International Labor Office in

Geneva. The world labor force is now estimated at 1,500 million, of whom more than 1,000 are in non-industrial countries.

The number of gainfully employed people also went up last year, but at a reduced rate: in Australia and Yugoslavia by over 3 per cent, in Germany, Canada and Poland by 1 per cent - 3 per cent, in Italy, Japan and U.S. by less than 1 per cent. Britain suffered a 2 per cent reduction in employment.

Canada the U.S. and Morocco reported the highest increases in unemployment last year, while Italy, Sweden and Switzerland had fewer unemployed than in 1969.

Nearly all developed countries registered a decrease in rural population. I.L.O. estimates that the 1970s will see an increase in the world labor force by over 280 million, of which 226 million will be in the developing countries.

**U.M.W. DEMANDS:** The United Mine Workers Union is preparing new wage demands that are expected to be almost twice as high as the increase won after a U.S. nation-wide strike in 1968. Contracts in 22 states expire 30 Sept. The union says it hopes to win an increase in pay from \$37.00 a day to \$50.00 a day, and double the 40-cent-a-ton royalty for the union's \$151-million welfare and retirement fund.

ALCAN ADVISES OF

**POSSIBLE LAYOFFS:** Last month Aluminum Co. of Canada Ltd., of Montreal gave the Quebec Government three-months notice that it may have to lay off employees at four Quebec plants. A company spokesman said there are no definite plans to lay off workers and "we are simply covering ourselves in the event the market goes softer." Under Quebec labor law, a company is required to give up to three months notice of all proposed layoffs and work stoppages.

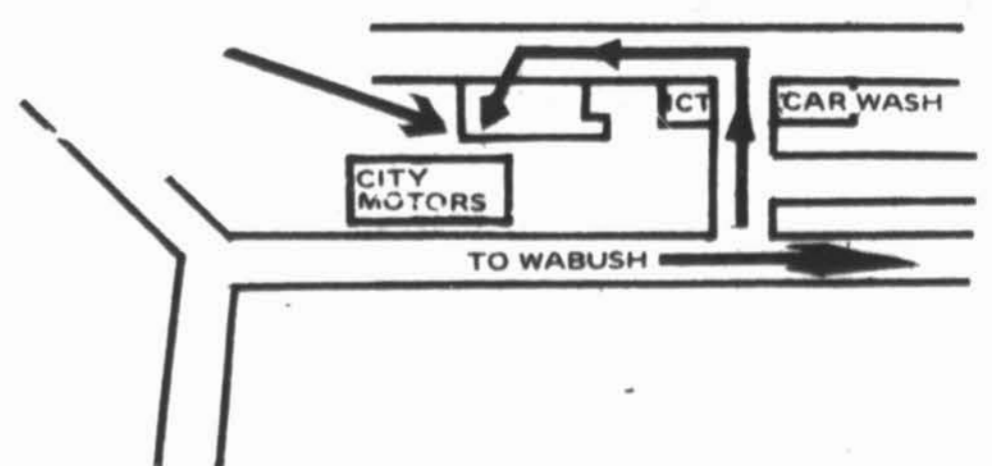

The layoffs could affect as many as 300 employees at Alcan's plants at Alma, Arvida, Shawinigan and Beauharnois. In the first three months of this year aluminum shipments decreased 7 per cent to 317,500 from 342,000 tons a year earlier. The company attributed the decline in sales to a slower demand in Western Europe, Britain and Japan.

N.V. Davis, president, indicated earlier this month that sales growth in 1971 depends upon progress in North America, since overseas markets show no signs of material improvement in the immediate future. Earlier Alcan said that prices of fabricated aluminum products may soon be increased in Canada because of high operating costs it linked to recent wage agreements signed at plants in Vancouver and Aurora.

# Roaming The Globe

**HOW TO FIND A SMALL HOTEL IN EUROPE:** Almost every European country has its own special breed of small or individualistic hotel. Here's a country-by-country summary plus information sources:

**FRANCE:** (Golden Chain). If the phrase chain hotel spells homogeneity to you, forget it when talking about France's "golden chain." This is the Relais de Campagne, an organization born about 20 years ago at La Cardinale, an inn between Lyon and Avignon which had been the 17th century home of Cardinal Richelieu.

Today there are nearly 90 members relais, or country inns, in France. Charter requirements include locations of natural beauty, tranquility, comfort and courtesy. Many establishments are run by the original owners who transformed them from manor houses, mountain lodges, farms abbeys, even castles, into hostleries. The spread is nationwide but standards set are tight. **VARIATIONS OF MORE THAN TWO DEGREES, FOR INSTANCE, FROM SPECIFIED DINING+ROOM TEMPERATURE.**

Prices range from about \$11.00 up to as much as \$50.00 for a deluxe double room with bath (no meals). Average is \$15. - \$20.00. Information on Les Relais de Campagne is available from the French Government Tourist Office, 1840 Sherbrooke Street West, Montreal.

**GERMANY:** (Packaged Castles). Fleeing the 20th century in Germany may mean sleeping in a four-poster where the czar of Russia once spent the night, dining by candle-light off game from the estate where you are staying, with wine from grapes grown on the hillsides just outside your windows.

Germany must be the world's most castle-rich country, around 21,000 altogether. And castle-hoteling has become so big that comprehensive tours are now arranged. At one end of the scale, five days in four schloss hotels with breakfast, dinner and sightseeing tours included costs \$79.00. At the other, a two-week vacations with stays at six castle-hotels in the Swabian Alps, the Black Forest, the Neckar Valley, Franconia and the Rhineland comes to \$205.00. Included in the latter are guided hunting and fishing, and visits to a falconry and a vineyard. If you're booking individually you can choose from more than 50 castle-hotels throughout the country. Price spread is wide; on average reckon on \$15.00 - \$21.00 for a double room with bath, including breakfast.

The German Tourist Information Office, P.O. Box 417, Place Bonaventure, Montreal, has lists of castle-hotels and details of the inclusive tours.

(Continued on page 14)

## The Labor Front

(Continued from page 12)

**REJECT 1/8 AN HOUR:** About 750 asbestos workers employed on construction jobs across Ontario went on strike recently after rejecting a two-year contract calling for \$7.10 an hour. The workers members of Local 95, International Association of Heat and Frost Insulators and Asbestos Workers, voted 285 to 281 to strike.

The workers are employed by more than 40 companies belonging to the Master Insulators of Ontario. They install insulation for refrigeration units, boilers and other heating systems. The old contract, which expired 31 MAY, called for \$5.50 an hour.

Alfred Kirton, the union's business agent, said the strike will halt insulation work on most commercial construction projects across the province. Other trades he added, will be unaffected by the dispute. He said another issue in dispute is the work week. The union wants an immediate reduction to 37½ hours from 40 while the firms involved do not want to reduce it until April of next year.

**C.N.T.U. LEADER TO LEAVE:** Business and labour alike were taken aback last month by M. Marcel Pepin's decision to retire next October from his post as president of Quebec's Confederation of

National Trade Unions. For six years he has guided the CNTU through successive storms, managing to hold a moderate philosophy despite strong pressure from a nationalist-radical wing. There is now obvious crown prince, and vigorous politicking is expected before a successor is chosen.

M. Pepin, 45, began his career as a technical advisor to the Metallurgists, Miners and Chemical Workers federation. He later joined the CNTU head office, and succeeded M. Jean Marchand as president in 1965. Under him the CNTU increased its membership to 250,000 from 140,000 often at the expense of the rival Quebec Federation of Labour, affiliated with the Canadian Labor Congress.

There are rumors that M. Pepin will join the Quebec department of labor. But he has not revealed his plans apart from saying he wants to continue "in the service of the workers."

**B.C. HYDRO:** After a rash of walkouts by members of the International Brotherhood of Electrical Workers the union now claims they have been locked out. Hydro has offered a 14 per cent increase in a two-year contract; the union demands 18.5 per cent; the base rate now is \$5.39 an hour. About 2,000 employees are affected.

## Roaming The Globe

**BRITAIN:** (Put Up At The Pub): The British pub is good for a great deal more than drinking. Except in big cities, most have overnight accommodation. Often it's of a high comfort standard, quite apart from being quaint. And pub dining rooms are often the best in the district. Nobody knows just how many inns there are in Britain. But the booklet "Some Inns of Britain" undoubtedly takes only a nibble at the best. It lists more than 750 inns which have between three and 20 bedrooms beyond 20 the distinctive pub cosiness may begin to fade) and which provide full meals.

Many of the inns selected are 300 years old and more. You can choose from Jacobean, Tudor, Georgian, Regency. Prices are

most reasonable; average for bed and breakfast per person is \$5.00 - \$6.00, though it can be as low as \$3.50. Lunches are around \$2.00, dinners \$3.00. Some Inns of Britain is available from the British Tourist Authority at 151 Bloor Street West, Toronto.

**SPAIN:** (Paradores Doubled): Best way to avoid hotel homogeneity in Spain is to become a guest of the government by staying at paradores. Monasteries, palaces, ancient inns, medieval fortresses, even in one case a historic hospital, all these and more have been incorporated into the very active inn-keeper role the governments plays by setting up and operating its nation-wide chain of unique hostels.

Demands upon the paradores are increasing, which is why a 10-day maximum stay during busy seasons has now been imposed. But the chain is growing too. A decade ago there were about 40 paradores. Now there are 81 with two or three more opening each year. Many are in less explored regions where Iberian cheer is greatest and tourists don't flock so thick.

Paradores' furnishings, appointments, levels of service are excellent, often extremely artistic, sometimes downright luxurious. Prices are eminently reasonable, \$6.00 - \$8.00 on average for a double room. For full board add \$4.00 - \$5.00 per person per day.

The Spanish National Tourist Office, 13 Queen Street East, Toronto, has lists of paradores, and also separate folders on many individual establishments.

**IRELAND:** (Country-House style). This green, green countryside harbors many small hotel with "atmosphere." If you're coming in to Shannon Airport, for instance, the Old Ground Hotel at Ennis, one of the most noted, is only 16 miles away and a good jump-off point for exploring Western Ireland. In County Limerick try the Dunraven Arms at Adare; in County Kerry, Tower's Hotel at Glenbeigh. Both are smallish (23 and 21 rooms respectively) hostels in country-house style.

If you're in the wilds of Connemara, try Sweeney's Oughterard House Hotel. The Village of Oughterard is said to be one of the west's prettiest, and there's free salmon and trout fishing for hotel guests. Two in the east, within easy reach of Dublin: Glen View at Glen of the Downs, and Hunter's Hotel at Rathnew. Hunter's, noted for its gardens, had been welcoming guests for two centuries.

Ireland has castel hotels too. A recommended five: Ashford Castle, County Mayo; Ballynahinch Castle, County Galway; Ballseedy Castle, County Kerry; Dromoland Castle, County Clare; Kilkea Castle, County Kildare.

Average bed-and-breakfast rates per person country-house and castle hotels are \$8.00 - \$12.00. A list of Ireland's leading hotels and guest houses appear in

Vacation In Ireland, a booklet available from the Irish Tourist Board at 2100 Drummond Street, Montreal.

**AUSTRIA:** (Live with Louis 16): Your hotel first appears in the records for the year 1130. It helped defend Vienna in the Thirty Years' War. Rebuilt as a baroque pleasure palace, it was a prized possession of the Empress Maria Theresa. Your room is furnished entirely in Louis 16, or maybe Renaissance or Biedemeier. You dine under a fresco which is one of the masterpieces of the Baroque school, walk among ancient forests. All this and 1971 too, private bath and phone, swimming pool and sauna, bar, grillroom and cafe.

You can expect this kind of vacation in Austria's castle hotels. There are more than 30, the majority clustered in the Innsbruck, Kitzbuhl, Salzburg and Klagenfurt areas. Some perch on mountain eyries, other front on lakes. Many have special entertainment.

Some open only April through September, though most reopen for the winter season. Rates range widely, \$5.00 up to \$20.00 for a double room with private bath and breakfast.

For your Castle In Austria, a detailed listing, contact the Austrian National Tourist Office at 630 Dorchester Boulevard West, Montreal.

## Mind Teasers

A tank is full of water. If two-thirds of the water is drawn off and 32 gallons are added, the tank is then 1/2-full. What is the capacity of the tank in gallons?

ANSWER

192 gallons. When two-thirds is drawn off, one-third remains, and the 32 gallons added represent the difference between one third and 1/2; subtract one-third and one-half, and divide result into 32.

If the square of twice a certain number of 371,522 more than twice the square of that same number, what is that certain number?

ANSWER

431. The square of twice a number of 4 times the square of the number. Therefore, 371,522 is twice the square of a number. Divide 371,522 by 2, and extract square root of result.

If 19 years ago John was 1/2 as old as he was last year, how old is John today?

37 years old. Letting X equal his present age, form equation: X minus 19 equals (X minus 1) over 2. Solve for X.

**JAILED FOR YEAR:** Two Winnipeg men were sentenced recently to one year in jail and their paperback book distribution firm, Great West News Ltd., was fined \$10,000 after an assize court jury convicted the men of possessing obscene written material for the purpose of distribution. The sentences are the heaviest imposed in Manitoba for such an offence.

**EEC A WINNER:** For the first time, the six EEC countries produced more cars and trucks than the U.S. last year; 8,540,000 vs 8,300,000. Among individual countries, the U.S. maintained a comfortable lead ahead of Japan (5.4 million units) and Germany (3.8 million units.) The next three places were held by France (2.5 million), Britain (2.0 million) and Italy (1.6 million) with Canada in seventh place. Germany is still the number one automobile exporter (over two million vehicles last year), but France and Japan are no longer far behind, with Canada in fourth place.

# Mining Briefs

**I.O.C.C.:** Iron Ore Co., of Canada Ltd., Montreal has awarded a \$2-million contract to Goodyear Tire & Rubber Co. of Canada Ltd., Toronto, to supply 12 miles of conveyor belts. They will be installed at I.O.C.C.'s operations at Labrador City, Nfld., and new processing plants and shipping facilities at Sept-Iles, Que. Delivery will begin this fall. I.O.C.C. has a 15-year contract with Japanese steel makers to supply concentrated iron ore.

**MINING SUPPORT:** The Quebec Government will increase its annual capital support to its mining and exploration agency, Quebec Mining Exploration Co., under legislation adopted in the National Assembly. Yearly contributions over the next five years will be increased to \$2.75-million from the \$1.5-million authorized in 1965 when the agency was established.

**REACTION TO BENSON'S BUDGET:** The Mining Association is mourning the end of Depletion Allowance. "Tax reform measures directed at Canada's metals mining industry will lead to cutbacks in exploration and mine development activities, according to the Mining Association of Canada. 'It is clear that Government intends to withdraw the key tax provisions that have undoubtedly contributed strongly to the high level of exploration and development of mineral resources in Canada during the past few decades,' the association said.

The three-year tax exemption for new mines has been a powerful incentive and its elimination will 'certainly affect decisions on some mining prospects and be a limiting factor to regional development.' It says the proposal to replace the present depletion allowance is an inadequate incentive to promote exploration. Under the new system,

to become effective in 1967, each \$3 of eligible expenditure by an oil or mining company will earn \$1 of depletion. Classified as eligible expenditure are exploration and development costs, the costs of most new mine facilities that qualify for accelerated depreciation, and certain new processing facilities and expenditures related to major mine expansions. 'Certainly the future level of mining activities will be less than under present legislation. This will affect Canada's competitive position in world mineral markets and have repercussions on vital sectors of the economy.'

**JAPAN TOPS U.S. IN STEEL:** Japan now far outranks the United States in productivity in raw steelmaking, Industry Week Magazine says in a recent edition.

Japan made raw steel in 1970 with only 5.70 man hours per net ton, 22 per cent less than the 7.31 man hours required in the United States that year, the business magazine reports. Japan first moved ahead of the United States in productivity in 1969, when it overall, used 3.6 per cent less man hours per net ton.

In finished steel products, the United States retains a slim edge in productivity, 11.9 man hours per ton of finished steel products, compared with 12.4 man hours per ton in Japan.

**DEVELOPMENT:** Consolidated Rambler Mines Ltd. plans to get at its higher grade copper ore in the new Ming zone as soon as possible. It will phase out the surface-drilling program in favor of underground development at the mine near Baie Verte, Nfld.

The drilling program has now indicated well above "the million-ton objective." Drilling this year has extended the zone for a greater length and to a vertical distance of 1,050 feet, which is 500 feet deeper than reported in the

annual report, an official said. Rambler shares went from .81 cents in February to a year high of \$3.30. They were recently selling for \$1.90.

**YUKON ROYALTIES:** Changes in mining regulations under the proposed Yukon Minerals Act that will raise royalty payments will go into effect in 1973, a year later than originally proposed. Northern Development Minister Jean Chretien said the Government is standing firm on its intention to force Canadian participation in future Yukon Mines. Under the proposed act, foreign companies must list their stock on a Canadian exchange when they go into production.

**SUMMER EMPLOYMENT:** Ontario's mining industry has hired more than 3,700 students for summer work this year, a 25 per cent increase over last year, according to the survey of 49 members of the Ontario Mining Association. This figure of 3,700 is almost 10 per cent of the total work force employed by member companies.

**WHEELING-PITTSBURG:** Wheeling-Pittsburg is reducing production because of fewer orders for delivery in July. One of the blast furnaces at its Monessen, P.A., plant has been banked and work turns reduced at the basic oxygen steel furnace and the blooming mill. About 200 employees are affected. A further 50 will be laid off at its plant in Allenport, Pa., and additional staff reductions are expected. Negotiations with the United Steelworkers of America to extend Wheeling-Pittsburg's main labor contract have been suspended and it will be July 31, the same as other producers. As a result, it wants to reduce its inventory as much as possible before then.
