NOTE: The comments and opinions expressed in this paper are not necessarily those of the publisher.

The Town of Labrador City wishes to inform residents of the construction and general works programme to be undertaken by the Town during the coming summer.

In addition to the Town's programme, IOCC will be erecting additional housing units and we expect to have considerable increase in private construction as well.

#### LABRADOR CITY

Paving, sidewalks and curbs and street lighting is planned for Churchill, Massey, McParland, Montagnais, Jackson, Nascopi, and Murphy Streets.

To facilitate the construction of homes, sewer and water services will be installed on the south side of Lakeside Drive in the Trailer Court area, on the east side of Vanier.

The sewage treatment plant will be modified and enlarged.

We are expecting a substantial increase in private construction which will include an expansion of the Carol Shopping Centre, a 45 room hotel on the corner of Drake & Avalon, a number of commercial businesses in the commercial yard, private homes and apartments.

This summer the Quebec Cartier Mining Company will be constructing a two lane highway beginning from a point on the existing road opposite the Railway Station, running along the eastern and northern limits of the town and on to Mt. Wright. In the near future the Town plans to construct two or three feeder roads to intersect this highway, allowing additional access into the town.

#### LABRADOR CITY EXPANSION

The announced doubling of IOCC production to begin in 1973 and the resultant increase in housing units required for additional personnel, requires the construction of a sub-division in the vicinity of Canning Lake.

The planning of this sub-division is presently in progress. It is expected to ultimately be equivalent in size to Labrador City, i. e. having a population of 10,000. Initially the sub-division is expected to have approximately 2000 people. The long range design will include in addition to housing lots, areas for schools, recreation, commercial district, and high density (apartment) living. Two major roads, one from the south side and one from the north will lead directly to the new sub-division.

This summer engineering surveys will be undertaken and ground clearing will begin. The first installation of services and home construction is not expected to begin before 1972.

CONTINUED -----

RECREATION

The Town is also planning a works programme in Recreation this summer.

This will include the completion of a new ball field east of the Curling Club, which was begun last year, the construction of two small satellite playgrounds in the west end of town, the installation of improved lighting at the tennis courts, building repairs and lounge improvements in the Curling Club, the installation of protective glass along the spectator side of the arena and possibly the installation of additional seating on the players bench side of the Arena, and parking and beach improvement at Tanya Lake.

This summer will be a busy season in the construction field within Labrador City. We ask for your co-operation and understanding for any inconveniences that may be caused from time to time as work progresses.

NOTICE

J.P. SCHAEFER M.D., FRCS (c) General Surgeon

I will be leaving Labrador in mid May and would appreciate notification of any professional or business obligations outstanding so as to honour them.

I am joining Drs. Beers and Lea in consultant surgery in Summerside, Prince Edward Island.

I would like to commend the surgeon Dr. L. Lavalle who will be replacing me in early May.

Dr. A.C. McDonald, surgeon, will be in attendance March 26 to May 3rd in my absence.

J.P. Schaefer, M.D., FRCS (c)

NATS

Hi Folks;

Splash! Bang! Crunch! The sounds of modern day driving, especially during the melting season in our twin communities. We may have thought that the snow removal crew did an excellent job, but when pot holes appear in the snow covered streets, where you sink to the axle before you strike pavement, then the truth hurts, especially to shocks and undercarriage.

But the towns have been wise enough to get the sewer heads clear of ice and snow to allow the run off to get away. Congratulations, that's using the old noggin.

Noticed the other day on Hudson, Santa was still prominently displayed. Is the resident of this house ahead of the rest of us or is he behind? Only he can tell.

Also on Hudson a resident cleared the accumulation of snow from his lawn, unto the road, much to the disgust and aggravation of motorists as it was blocking almost half of the street.

That's all for this week.

Love,  
Nats.

## DAILY LIGHT

by  
D.R. Parsons

Great is the Lord, and greatly to be praised in the city of our God, in the mountain of His holiness.

Beautiful for situation, the joy of the whole earth, is Mount Zion, on the sides of the north, the city of a great king.

Psalm 48;1-2

Just how great is the Lord? We should read these words; "Behold, in this thou art not just; I will answer thee, that God is greater than man". (Job 33;12.)

The Word advises us the Lord is "greater"; we read, "For the Lord is a great God, and a great King above all Gods". (Psalm 95;3.)

Here we are advised that He is the greatest of all. He is greatness itself. But what does it mean for us? It means He is great in His deliverance. "Where sin abounded, grace did much more abound." (Romans 5;20.)

He is great in His sustaining care of the saints. He is great in His promises to us; He implants a great hope within us.

The greatness of the Lord was to be praised in Jerusalem, God's holy city, and on His mountain, Mount Moriah, on which the Temple was built. (Moriah is one of the hills of Mt. Zion.)

Not all mankind did utter the cry, "Great is the Lord." One recalls the mad cry, "Great is Diana of the Ephesians" (Acts 19;28). One still hears that cry, Perhaps the names are different, but the ideas are the same. Man can praise almost anything of his own making and his own ingenuity, but he feels ill at ease to praise his own creator. This difficulty is not always conquered by regeneration.

We are told that for physical well-being we would do well to stand in front of an open window each morning and take a dozen deep breaths (modern medical science is not too sure what good this does, or if it might do some harm, depending on where you are when you deep-breathe!). We are quite sure that one good exercise for spiritual well-being would be to begin each day by arising and shouting, "Great is the Lord and greatly to be praised". The rest of the day you can just count the reasons why He is great in your life. If you can count that high.

Many, O Lord my God, are thy wonderful works which thou hast done, and thy thoughts which are to us-ward: they cannot be reconed up in order unto thee: if I would declare and speak of them, they are more than can be numbered. (Psalm 40; 5)

THE POEM

Once upon a snowey day in the once upon a time,  
We sat down my dad and I to write a little rhyme.  
We wondered long to find the thing that it would be about,  
An hour after starting we began to have a doubt,

That we would find something unique to make our little poem,  
We thought of everything from soup to nuts to camping trips and  
home.

After many starts and stops, discouragement set in,  
I was all for quitting when dad's face broke in a grin.

Let's write about the poem itself, it's unique said dad,  
So here's a poem about a poem made up by me and dad.

" MOSQUITO AND BLACK FLY CONTROL

Following a thorough review of the circumstances surrounding the finding of dead minnows in a local stream last summer, and considering that to date experts have been unable to prove positively that areal spraying either did or did not kill the minnows, the Town of Labrador City have decided not to undertake any aerial spraying or stream larviciding in this area for the control of mosquitos and black flies this coming summer.

The Town will continue to perform street "fogging" as in the past. "

SPORTS

Terry Hayward loses by unanimous decision to Dan Tucker.

Sunday at the arena we witnessed the main event. We are not sure that Terry Hayward should be called the "Pride of Labrador City." Terry did not show much sportsmanship during the bout. The decision of the judges was definitely the decision of the capacity crowd also. We always thought that Terry should show example to the upcoming boxers.

In the semi-finals Stan Hayward won over Keith Paris when the referee, Roy Basette, stopped the fight at 1:50 of the 3rd round because Paris was unable to continue.

The 5th bout - Dave Simon won over Claude Dupuis at 1:02 of the 2nd when the referee ruled that Dupuis was unable to defend himself.

In other bouts Al Summerville and Mike Coady drew; Bill Bruce won over Dave Weadon; and the other two bouts were both draws seeing Billy Dove vs Jeff Boland and Stephen Seaward vs Dennis Drover.

Trophies were won by all the amateur boxers of Labrador City. They were; The best effort donated by D & H Enterprizes and won by Al Sommerville. The best showman donated by the Good Life and won by Mike Coady. The best fighter of the evening donated by the promoters and won by Dave Simon. The winner of the 3rd bout, a jacket, donated by the boxing club and won by Billy Bruce. And to the loser of the 3rd bout, a trophy, donated by the Carol Link and won by Dave Weadon.

-----

In the Industrial Hockey tournament, held in Schefferville over the weekend, Labrador City lost both games with scores of 6-5 on Saturday and 9-3 on Sunday.

-----

Bob Shackleton - 3rd in his class with a Rupp  
Gilbert Blanchard - 2nd in his class - 650 - 800 cc

Trophies won by the Tanya Snow Cart Club in Schefferville. They had a good stay and everyone enjoyed themselves and would like to thank the Iron Ore Company for their help.

LETTER TO THE EDITOR:

"The Plough Came Again"

This is in reference to snow ploughing and the removal of snow. March 22., my husband and I went out to shovel our driveway. When I got to the end of it I was shocked to see that the plough had given us enough snow to fill at least five driveways. In all my three years of living on this street I have yet to see them plough the other side first which gives us the bulk of it everytime. Needless to say, I think this discusting as, I know all the plough driver has to do is flick the blade especially for those who work hard at keeping their driveways clear.

By the way, I have only one side to shovel snow, as I have a built-up double driveway and I also respect my neighbour by not filling in his driveway with snow so therefore, he has only one side to shovel which doesn't leave much. He has to pile it so high that it is impossible to see in or out of my driveway. I certainly think the payloader could remove some of these embankments as they are a danger to small children, and the fact that I can't see if there is a car coming or not when I back out of my driveway. I must say, where in the dickens is our snowblower plus crew to remove these obstacles from our way to prevent possible accidents. Again I say, as most people do here, we pay enough taxes to supply the town with adequate snow removal vehicles. More than enough. So where is it? I'm asking you, the town - so I hope some answers will be published by letters in this paper to let all the people of this town know where the money is going.

In regards to this, I called the town office to speak to Mr. Rendell in which I was told he was out. The lady that answered the phone asked me what I wished to discuss, so I told her what it was about. These were the remarks, "You can tell me if you want to get it off your chest" also "Not to worry as the snow won't be here much longer". Well, I won't be here much longer either if I have to remove snow from the sidewalks which is the town's job. She also said, "The plough has to fill in every vacant space" even if it's your driveway which you just paid \$5.00 to have cleared. I gave her my name and number and asked if Mr. Rendell would call me. Well, this is one day later and he still hasn't, so, I tried to see him at the office and I also stated my name there too. Next thing I knew, a man walks in and helps himself to my turn as I was there first. So, I did not get to see him as it was 3:00 pm and I had other commitments. So there was two failures of which I had no control.

I think its about time that the people of this town voiced their opinions on this matter and maybe a little more effort will be shown on snow removal and these things wouldn't occu.

Another point I would like to make is we do live in Labrador and not some other part of Canada where snow pile-up isn't as bad so, I think the plough driver should show a little more courtecy to the people here. After all, we pay the shot.

I am certainly not a person to grumble, but when I have to shovel the plough's lot as well as my own, it's not an easy task. I hope this letter will prove some action and get some of our streets cleaned so we'll have more than a cow path to drive our cars on.

Mrs. Ross Wheadon  
817 Hamilton St.
