EDITORIAL:

After a long winter, very nearly everyone looks forward to seeing the green plants, the sparkle of water from the lakes and some hardy souls even think of swimming. We do have some lovely little lakes close to town where children can walk to on the hot days, if not to swim, they at least play in the water and on the beaches.

Unfortunately, we have another type of person who likes to frequent these beaches also, usually at night! These IDIOTS who know no better, throw their garbage around the countryside, mostly glass bottles, which they probably delight in seeing break in as many pieces as possible. Do these fools think the children should be confined to the streets of the town, and not be allowed to use the beaches? They do not care, that every year, there are far too many serious cuts, as a result of their thoughtlessness.

In the playground and at the beaches, there are receptacles provided, for garbage. THESE ARE PLACED THERE TO BE USED! When picnicking at a spot where there are no containers, it is an easy matter to drop the debris in a bag and bring it back to town, to be put in a garbage can later. Perhaps if these litter-bugs were presented with a good stiff fine, they would learn how to behave like decent citizens, who take pride in their community.

A good little rule was given to the Carol News by a reader, and we pass it on -

MUNCH YOUR LUNCH, WITH MIRTH AND LAUGHTER
BUT DON'T FORGET TO CLEAN UP AFTER

and in a like matter -

DRINK YOUR BEER, IN GOOD CHEER
BUT DONT LEAVE EMPTIES TO SAY YOU WERE HERE

As a closing thought - residents would be wise to pick Tanya Lake as their picnic and swimming spot. The Town is making a determined effort to keep the beach clean and safe, and have cut off access by car, in order to accomplish this. It seems a pity that the other areas where it is impossible to keep cars away, should be spoiled by a few, for so many - - -

ATTENTION PARENTS

The annual town fogging operations have begun. This procedure is necessary in order to eliminate as much as possible the black-fly and mosquito problem within the town limits.

A specially designed machine is used for this purpose and in past summers it has been noted that the fog from the machine has provided a great source of attraction for the children of the town. In connection with this a WORD of warning is issued to all parents to keep their children away from the immediate fogging area.

There a number of reasons why this warning is necessary.

First - the fog from the machine is rather dense in the immediate vicinity of the machine and passing motorists may have difficulty in spotting children

Secondly - the chemical used in fogging is a 5% solution of DDT and if this is inhaled in large quantities it will cause nausea and an eventual slight loss of weight. For this reason also it is advisable for windows and doors to remain closed during the operation.

Thirdly - by keeping the children away from the fogging area a contribution is made to the greater success of the fogging operation and a more efficient job can be done.

Note: This is a repeat notice, as it appears some children were not warned, of the danger, and were seen running through the fog. - Ed.

COME HOME YEAR NOTE

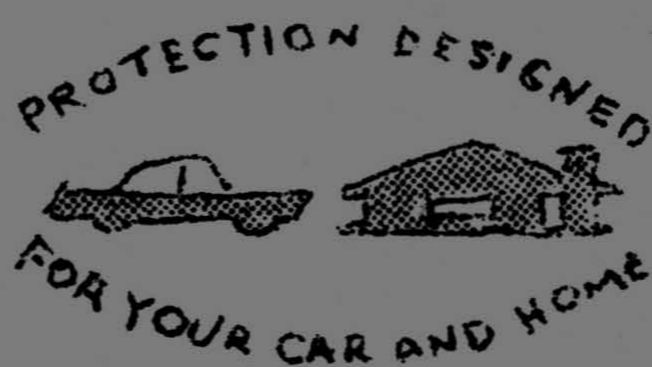

There are some two thousand Come Home Year volunteer workers in the Province who have availed of their time and energies to insure the success of our big project. These workers have been presented with an attractive lapel pin of the Provincial Coat of Arms and vehicle windshield sticker of the same design. If you are travelling in our Province, no doubt you will see and meet many people wearing these pins and displaying the car sticker. These volunteer workers are interesting and friendly people who can explain what actually is taking place in their community during your visit. Introduce yourself to the volunteer Come Home Year Committee workers - they would like to meet you.
